2110 MISSION STATEMENT

The mission of Parsippany-Troy Hills School District is to provide effective instruction in all program areas so that pupils master the proficiencies inherent in the New Jersey Core Curriculum Content Standards as well as those in our district curriculum, to develop the learning potential of all pupils in the district, to build skills for a lifetime of learning, and to develop a feeling of self-worth and confidence that will allow pupils to become productive members of society.

To accomplish this mission, Parsippany-Troy Hills School District is committed to a system which recognizes principals, supervisors, and directors as instructional leaders and empowers members of the teaching staff to become partners in the development of curriculum and refinement of instructional strategies. The Board of Education also seeks the involvement of parents and members of the community as participants in a partnership to promote quality education. The result of this collaboration is to produce effective learners who can cope with the demands of an ever-changing society.

Furthermore, we are dedicated to achieving a spirit of humaneness as pupils involve themselves in school activities as well as contributing to the well being of the community. To achieve these ends, the Board of Education also supports a continuous program of staff development for all employees as means of developing the most effective curriculum and instruction for all our pupils.

Adopted: 8 January 2009

No course of study will be taught in this district unless it has been formally adopted by the Board. The Board shall determine which units of the instructional program constitute courses of study and are thereby subject to the adoption procedures of the Board.

Each course of study approved for credit toward high school graduation shall include course proficiencies. In order to satisfactorily complete a course of study, a pupil must demonstrate mastery of the established level of course proficiencies. Core course proficiencies shall include, but need not be limited to, proficiencies established by the State Board of Education in the curriculum areas of mathematics; science; language arts literacy; social studies; world languages; visual and performing arts; career education; and health, safety, physical education; and technology.

2240 CONTROVERSIAL ISSUES

In New Jersey, the local Board is by law responsible for determining what shall be taught in the schools, subject to the general laws and the regulations prescribed by the State Board of Education.

Sooner or later young people will meet and must face controversial issues. A question is defined herein as controversial when it has more than one answer and may raise conflicting opinions in the local, national, or world community. It is important that pupils develop skills for considering such questions in the congenial atmosphere of the classroom wherein a trained teacher will direct their study in a fair and unbiased manner.

The teacher trained in the techniques of group discussions will avoid finding only one answer as a solution, but will see that all facts, evidence, and, aspects of an issue are presented honestly through the use of books, newspapers, magazines, audiovisual aids, etc.

The Board shall make sure that the pupils are provided with adequate and varied instructional materials which present fully all sides of the controversial questions to be considered.

The proper avenues by which arguments on controversial questions reach pupils in school are the teachers holding appropriate certificates, the pupils themselves, and the materials furnished by direction of the Board.

The purpose in presenting controversial issues is not indoctrination, but rather it is to have the pupil see as fully as possible, all sides of the question.

The wise teacher avoids going into a controversial question beyond his/her own depth, as a pupil would better be uninformed about a question than misinformed about it.

If a teacher does not feel capable of handling a question which arises unexpectedly, he/she should avoid going into it and should direct the pupils to the proper sources or persons who can give them the facts to help them form their own opinions.

The Board upholds the teacher's right to express his/her own opinion, provided that the pupils understand it as such and are not expected to accept it as the authoritative answer.

The decision as to whether or not a controversial question becomes a matter for class study should be based on its timeliness, the maturity and needs of the pupils, and the purposes of the school. This decision rests ultimately with the Board; having come through the proper channel of teacher to Principal to Superintendent. The teacher, with the advice of the Principal, shall determine how much time and emphasis shall be given the question.

No individual or group can claim the right to present arguments directly to pupils in school.

A citizen has a right to assume that controversial questions are being presented fairly, and to protest to the Board if convinced that they are not.

Complaints

If however, there is concern over an issue stemming from classroom instruction or the use of materials not included in the approved courses of study, the following procedure is to be followed:

First level: The matter should be addressed by the complainant to the teacher who will arrange for a conference to discuss the issues in question. The result of the discussion is to be reported by the teacher to the Building Principal.

Second level: If the matter has not been resolved satisfactorily at the first level, the complainant may request a conference with the Building Principal.

Third level: If a satisfactory resolution is not achieved through the discussion with the Building Principal, a request, in writing, for a conference with the Superintendent should be made. The request should include:

1. The specific nature of the complaint; and
2. The action the complainant wishes to be taken.

The Principal shall submit a report to the Superintendent outlining the procedures pertinent to the complaint which were followed at the building level. Following the conference, the Superintendent shall respond to the complainant, in writing, his/her resolution of the complaint.

Fourth level: If the Superintendent's resolution is considered unsatisfactory to the complainant, he/she should request, in writing, hearing by the Board. The Board, after reviewing all pertinent data shall provide the complainant with its decision within thirty days following the decision.

Adopted: 2 April 2009

2260 AFFIRMATIVE ACTION PROGRAM FOR SCHOOL AND CLASSROOM PRACTICES

The Board of Education shall, in accordance with law, strive to overcome the effects of any previous patterns of discrimination in school and classroom practices and shall systematically monitor district procedures to ensure continuing compliance with anti-discrimination laws and regulations.

The following administrators shall serve as Affirmative Action Officers and shall coordinate all activities designed to implement this policy: The Director of Personnel – District and Employment/Contract Practices Director of Special Services 504, Coordinator for Disabled Students and Staff, and the Director of Curriculum and Instruction School and Classroom Practices shall identify and recommend the correction or removal of impermissible bias based on race, color, creed, religion, national origin, ancestry, age, marital status, affectational or sexual orientation or sex, social or economic status, or disability. He/She shall:

1. Review current and proposed curriculum guides, textbooks, and supplemental materials for bias and determine whether such materials fairly depict the contribution of both men and women and various racial and ethnic groups in the development of human society;
2. Develop an ongoing program of in-service training for school personnel designed to identify and solve problems of bias in all aspects of the school program;
3. Review current and proposed programs, activities, and practices to ensure that all pupils have equal access to them and are not impermissibly segregated in any duty, work, play, classroom, or school practice except as may be permitted under rules of the State Board of Education;
4. Ensure that similar aspects of the school program receive commensurate support as to staff size and compensation, purchase and maintenance of facilities and equipment, and access to such facilities and equipment;
5. Ensure that tests, procedures, and guidance and counseling materials that are designed to evaluate pupil progress or aptitudes, or analyze personality or in any manner establish or tend to establish a category by which a pupil may be judged are not impermissibly differentiated or stereotyped.

2270 RELIGION IN THE SCHOOLS

The Board of Education recognizes that religious belief and disbelief are matters of personal conviction rather than governmental authority and the pupils of this district are protected by the First Amendment of the United States Constitution and by Article I, Paragraph 4 of the New Jersey State Constitution from the establishment of religion in the schools. School officials will be neutral in their treatment of religion in the school district, showing neither favoritism toward nor hostility against religious expression. Accordingly, devotional exercises will be permitted in this district. The following activities will be permitted in the school district provided the activity is consistent with current United States Supreme Court decisions regarding the relationship between government and religion: prayer during instructional time; organized prayer groups and activities; religious expression and prayer in classroom assignments; pupil assemblies and extra-curricular events; prayer at graduation; baccalaureate ceremonies; devotional exercises; and other prayer and/or religion related activities. The school district will not permit an activity if the activity advances or inhibits any particular religious expression that is protected by the First Amendment of the United States Constitution.

The Board believes that an understanding of religions and the contributions that religion has made to the advancement of civilization is essential to the thorough education of young people and to their appreciation of a pluralistic society. To that end, the curriculum may be developed to include, as appropriate to the various ages and attainments of the pupils, instruction about the religions of the world.

The Board also acknowledges the degree to which a religious consciousness has enriched the arts, literature, music, and issues of morality. The instructional and resource materials approved for use in the schools of this district frequently contain religious references or concern moral issues that have traditionally been the focus of religious concern. That such materials may, therefore, be religious in nature shall not, by itself, bar their use by the district. The Board directs that teaching staff members employing such materials be neutral in their approach and avoid using them to advance or inhibit religion in any way.

The Board recognizes that religious traditions vary in their perceptions and doctrines regarding the natural world and its processes. The curriculum is chosen for its place in the thorough and efficient education of the children of this district, not for its conformity to religious principles. Pupils should receive unbiased instruction in the schools so that they may privately accept or reject the knowledge so gained in accordance with their own religious tenets.

2310 PUPIL GROUPING

The Board of Education believes that each pupil should be provided with the instruction that will best suit his/her intellectual, physical, emotional, and social capabilities. The Board authorizes the Superintendent to develop a schedule and class organization that will provide for the placement of pupils in instructional groups that will offer them the greatest educational benefit.

The grouping of pupils should be flexible and should take into consideration the age, mental ability, past academic record, emotional needs, physical maturity, and interests of each pupil.

2312 CLASS SIZE

The Board recognizes that instructional arrangements must be tailored to suit the changing needs of the district and the student body. The maximum class sizes on which the budget will be based are:

Kindergarten – Grade 5	25
------------------------	----

The Superintendent shall share an enrollment update with the Board and recommend changes in accordance with policy, at its regular June and August meetings. The initial decision concerning number of sections per grade per school for a given school year shall be made by June 30 of the previous school year. Modifications or expansions may be recommended the Friday of the first full week of school by the Superintendent, after that time with final decisions regarding consolidation, expansion of classes, or other measures determined no later than OCTOBER 1st. The hiring of an aide for a classroom, grade level, or school may be recommended by the Superintendent at any time as needed.

When Kindergarten registration has reached the maximum of twenty-five per class, additional registrants shall be diverted to a neighboring school which has Kindergarten spaces. The sending Principal shall contact the office of the Superintendent to determine the receiving school. The parent(s) or legal guardian(s) shall be advised that the arrangement is for the Kindergarten year only, after which the child shall return to the home school for first grade. If a vacancy occurs in the Kindergarten at the home school during the course of the year, the parent(s) or legal guardian(s) shall have the option of returning the child to the home school or allowing him/her to complete the year at the receiving school.

As the result of fiscal constraints or building needs, the Superintendent is authorized to recommend to the Board of Education an increase in class size.

2320 INDEPENDENT STUDY

The Board of Education will permit a properly qualified pupil to earn credit toward high school graduation by completion of a program of independent study in accordance with rules of the State Board of Education and this policy.

A program of independent study shall consist of curricular activities and may include, but need not be limited to, enrollment in a course offered by an approved institution of higher learning.

The Board shall approve each program of independent study and designate the number of credits toward graduation to be awarded upon successful completion of each such program. Credit shall be awarded only on the Principal's certification to the Board that the pupil has met the specific instructional objectives established for the program of independent study.

The Board directs that only those pupils shall be admitted to a program of independent study who have demonstrated academic proficiency, maturity of judgment, a strong motivation to learn, and self-reliance. Applicants shall be limited to pupils in grade nine and above. Programs of independent study need not be limited to participation by a single pupil but may involve more than one or a group of pupils, subject to Board approval.

The Principal shall offer aid and counsel to qualified pupils who wish to explore and initiate independent projects. The Principal shall develop specified, measurable instructional objectives and assign appropriate staff guidance for each individually planned program of independent study.

Each recommendation for Board approval of a program of independent study must include the objectives established for the program; a description of the method of study and research to be undertaken, if any; and a proposal for the number of credits to be awarded for the program.

The Assistant Superintendent of Curriculum and Instruction shall maintain a file of independent projects for such review as the Board or the Commissioner may require.

PROGRAM

2330 HOMEWORK

The Board believes that homework is an essential part of the learning process. It serves a valid purpose when it:

1. Provides essential reinforcement and/or extension of skills;
2. Encourages good work habits and self-direction;
3. Promotes responsibility; and
4. Helps to enrich and extend the school experience.

When homework is assigned, it is primarily the responsibility of the pupil to complete and return it at the scheduled time. Both the teacher and parent(s) or legal guardian(s) also recognize certain criteria and responsibilities.

1. Teacher criteria
 - a. Homework is assigned to introduce, reinforce, or follow up a given lesson;
 - b. Homework is designed to fit the pupil's needs;
 - c. Homework is a means of communicating learning experiences with the home;
 - d. Homework is to be reviewed with the pupil; and
 - e. Homework is not for disciplinary reasons.
2. Parent(s) or legal guardian(s)' responsibilities
 - a. To provide suitable study conditions;
 - b. To show an interest in some way in the pupil's works;
 - c. To willingly interact and provide support; and
 - d. To see that homework is accomplished.

Both home and school will communicate with each other when a problem arises affecting homework. The amount of time spent on homework will vary from day to day. Because of the individual differences and needs of the pupils, it is unsound to require or expect all pupils to experience the same kind of homework.

2340 FIELD TRIPS

The Parsippany-Troy Hills Board of Education recognizes that field trips properly planned and integrated with the curriculum are an educationally sound and important part of the program of the schools that can supplement and enrich classroom instruction by providing learning experiences in an environment outside the schools.

For purposes of this policy, a field trip means any journey by a group of pupils away from the school premises, under the supervision of a teacher, and integrally related to an approved course of study.

The Parsippany-Troy Hills Board of Education shall approve annually a list of potential field trips. All proposed field trips not so listed must be individually approved by the Board. All trips not listed in the curriculum guide must be individually approved by the Assistant Superintendent of Schools.

The Board may authorize field trips for which all or part of the costs are borne by the pupils' parent(s) or legal guardian(s), except that no pupil in a special education class or pupil unable to pay the cost assessed shall be prohibited from attending a field trip. (N.J.S.A. 18A:36-21)

Pupils on field trips remain under the supervision of this Board and are subject to its rules and regulations.

A pupil who violates rules or disregards the authority of supervisors on a field trip significantly endangers the safety of other pupils and may be summarily dismissed from the trip. The teaching staff member in charge will make arrangements for the dismissed pupil's transportation to home or school as appropriate. The cost of any such transportation will be borne by the parent(s) or legal guardian(s) of the pupil. The Board reserves the right to take further disciplinary measures in accordance with Policy No. 5600.

The Superintendent shall prepare regulations for the operation of field trips that ensure that the safety and well-being of pupils shall be protected at all times; that parental permission is sought and obtained before any pupil may be removed from the school for a field trip; that each field trip is properly planned, integrated with the curriculum, and followed up by appropriate activities that enhance its usefulness; that the effectiveness of field trip activities are monitored and continually evaluated; that teachers are allowed a considerable degree of flexibility and innovation in planning field trips; that no field trip will be approved unless it contributes to the achievement of specified instructional objectives; and that teachers are not permitted to make on-site alterations to a trip itinerary, except where the health, safety or welfare of pupils is imperiled or where changes or substitutions beyond the control of the teacher have frustrated the purpose of the trip.

Travel outside the United States is not sanctioned by the Parsippany-Troy Hills Board of Education. Any travel arranged by a teaching staff member shall be at the discretion of the teacher, arranged by the parent(s) or legal guardian(s), pupil, and teacher, and shall not occur on days of regular school attendance. Notification of pupils of a proposed trip, shall not take place on school premises, nor shall school district materials or duplicating equipment be used to notify pupils of such travel. All communication concerning such travel shall clearly indicate that the travel is neither sanctioned, sponsored, nor endorsed by the Board of Education.

Pupil Self-Administration of Medication

The Board of Education shall permit self-administration of medication for asthma or other potentially life-threatening illnesses by pupils both on school premises during regular school hours and off-site or after regular school hours when a pupil is participating in field trips or extracurricular activities. Parent(s) or legal guardian(s) of the pupil must meet the following conditions:

1. The pupil suffers from a life-threatening illness as verified by his/her medical home;
2. The medical home has certified that the medication must be administered during the school day;
3. The medical home, parent(s) or legal guardian(s) and the pupil have agreed that the pupil is capable of self administration;
4. The school physician and school nurse agree that the pupil is capable of self administration;
5. The parent(s) or legal guardian(s), nurse, and pupil in the development of the individualized healthcare plan, agree to how the medication is pre-measured, labeled, and carried to ensure that the pupil only carries the quantity necessary for a prescribed time;
6. The pupil's ability to self administer is documented in the individualized healthcare plan;
7. The pupil's medication, if ingested by someone other than the pupil will not cause severe illness or death.

The Board of Education shall:

1. Inform the pupil and his/her parent(s) or legal guardian(s) that permission is effective for the school year for which it is granted and must be renewed for each subsequent school year upon fulfillment of requirements listed above;

2360 USE OF TECHNOLOGY

The Board of Education recognizes the use of technology in the educational process is an essential part of the schooling experience. Technology is to be viewed as a resource to enhance the learning process among other resources available to teachers and pupils. In addition, technology can be used to enhance the administration of the schools and the district. In order to provide direction and meaning to the use of technology as an instructional resource, the Board encourages and supports staff use of technology as a component of the learning process.

For purposes of this policy “technology” includes, but is not limited to, the use of computers and computer peripherals, communications networks, access to databases and libraries of information and the integration of audio, video, multimedia devices and media for purposes of teaching and learning.

The Superintendent, in consultation with teaching and support staff, shall recommend to the Board the acquisition of appropriate technology to best implement the curricular, instructional, and administrative program of the school district. The Superintendent shall prepare a technology plan for the school district to encompass the following:

Curricular, Instructional and Administrative Need

The technology plan shall define the curricular, instructional and administrative need for technological equipment and media for the district.

In-service Education

The Board shall provide opportunities for school staff to participate in in-service programs on hardware or software programs to be used in the execution of educational and administrative tasks. In-service programs may be provided in or out of the district.

Standards, Codes and References

All technology installations shall conform to the industry standards and applicable federal, State and local statutes and codes.

Facilities Planning

In all facilities projects involving new constructions, additions, and renovations the Superintendent or designee shall ensure the plans include provisions for current and future technology needs in terms of the structural, electric/electronic, mechanical, acoustical and visual systems of the building(s). All educational specifications shall include features required for the use of instructional technology.

Computers

The school district will provide support or maintenance agreements for specified brands of computers. All other computers purchased or donated will be subject to repair only when non-allocated funding is available and therefore may remain unrepaired until funding is available.

Computer Software Acquisition and Upgrading

The school district will only support the specified upgrades and training. Staff members shall not purchase software that has not been included on a list of specified software or has not been approved by the Coordinating Supervisor of Educational Technology.

The Superintendent will recommend the purchase of upgrades to software as needed. An evaluation of upgrades shall be made by appropriate personnel and no upgrade shall be purchased without the express approval of the Coordinating Supervisor of Educational Technology.

Site Licenses

In the case where more than one copy of a software program is required, the Coordinating Supervisor of Educational Technology shall attempt to acquire or negotiate a site license with the software developers. In the event a site license is not possible, vendors shall be sought who will provide multiple copies at a discounted cost.

Software Copyright

All employees shall strictly adhere to the copyright laws of the United States. No software shall be copied and/or distributed except in accordance with these laws. All software placed on media workstations or any network with public access shall be copy protected by the Coordinating Supervisor of Educational Technology, who shall assure that individuals who have access to such programs shall not copy them without authorization.

Internal Communication (District)

The school district shall provide communication between schools by a variety of means.

External Communications

The Board encourages the use of external communications so schools may utilize the vast resources of external databases and communicate with other schools, external agencies, and businesses throughout the world. Gateways to such communications will be supported by the school district. The use of particular gateways shall be approved by the Manager of Information Systems. The Manager of Information Systems shall be responsible for the installation of software in district owned computers and/or computer systems that prevents access to gateways and Internet sites that have material considered by the Manager of Information Systems to be inappropriate for use by pupils.

Computer Laboratories and Distributed Computing

In order to provide teacher, staff, and pupil access to computers, the Board directs that provisions be made to provide computer access in computer laboratories, classrooms, and school libraries/media centers.

Audio/Video

All audio and/or video materials shall be used in accordance with the copyright laws of the United States. Teachers, pupils, or staff who create audio or video materials containing the voices or images of the individuals involved shall obtain proper releases from those individuals, their parent(s) or legal guardian(s) for instructional use within the school.

Use of film and television is an excellent way to enhance the curriculum. Used as resources to supplement direct instruction, media materials can represent diverse points of view and stimulate growth in analytical and thinking skills.

Teachers are reminded that all materials are not suitable for all learners. Previewing materials is a necessity to ensure the accuracy and appropriateness for the classroom. Movies, feature films, and television programming offer a unique dilemma. If, however, a selection of a film and/or television program to supplement classroom instruction is “inappropriate” according to the movie and television rating systems (see chart), approval of the use of the material and the lesson plan by the Principal and Supervisor is required.

If considered to be instructionally appropriate, parental permission to view a film or television program is also required (see form letter). When a parent(s) or legal guardian(s) declines to give permission for his/her child to view potentially inappropriate media, the teacher must provide an alternative activity that will offer the pupil an equivalent educational experience.

Informing Parents, Legal Guardians and Interested Parties

Upon request, the Building Principal shall make available to parent/legal guardians the name of computer hardware and software used in the district in order that a computer purchased privately for home use may be compatible with the computer and software the pupil uses in the school setting.

Technology Coordination

The Board shall appoint a Manager of Information Systems to assure the technology needs of the district are met in the most efficient manner possible at the lowest costs available to meet specified needs.

Broadcast Rights and Copyrights

The Board specifically retains the Broadcast rights and copyrights to all materials created by employees of the Board as part of their responsibilities to the Board. Any financial remuneration for the use of such materials shall be retained by the Board.

Computer Security

The Manager of Information Systems shall develop security procedures to include, but not be limited to, the following areas:

1. Physical Security of Equipment

All computer equipment shall be maintained in a secure manner appropriate to its location.

2. Data Security

- a. Back-up procedures for system files, libraries, and data shall be practiced in a timely fashion.
- b. Disaster recovery plans shall be kept up-to-date at all times.
- c. Password protection shall be in place and updated periodically.

d. Resource security shall be in place to prevent unauthorized access to system files, libraries, and data.

3. Employee Training

All new employees having, as part of their job responsibilities, access to computers and information systems will be trained in the proper security procedures outlined above.

All employees having, as part of their job responsibilities, access to computers and information systems will be kept up-to-date on current security procedures for equipment and data.

4. Transaction Audit Trail

Appropriate procedures will be maintained in order to monitor system activity and users, as necessary.

5. Security Officer

The Superintendent shall designate the Manager of Information Systems as the district's Computer Security Officer to monitor system security procedures.

Use of Facsimile (FAX) Machines

Fax machines provide a useful means of communicating and shall be subject to the same rules that apply to the use of telephones. All incoming faxes shall be considered confidential mail. No disclosure of the contents of any fax shall be made except to the individual for whom the fax is intended. Any individual violating this confidentiality shall be subject to discipline as provided by the policies and regulations of the Board.

2361 ACCEPTABLE USE OF COMPUTER NETWORK/COMPUTERS AND RESOURCES

The Board of Education recognizes that as telecommunications and other new technologies shift the manner in which information is accessed, communicated and transferred that those changes will alter the nature of teaching and learning. Access to telecommunications will allow pupils to explore databases, libraries, Internet sites, bulletin boards and the like while exchanging information with individuals throughout the world. The Board supports access by pupils to information sources but reserves the right to limit in school use to materials appropriate to educational purposes. The Board directs the Superintendent to effect training of teaching staff members in skills appropriate to analyzing and evaluating such resources as to appropriateness for educational purposes.

The Board also recognizes that telecommunications will allow pupils access to information sources that have not been pre-screened by educators using Board approved standards. The Board therefore adopts the following standards of conduct for the use of computer networks and declares unethical, unacceptable or illegal behavior as just cause for taking disciplinary action, limiting or revoking network access privileges and/or instituting legal action.

The Board provides access to computer network/computers for educational purposes only. The Board retains the right to restrict or terminate pupil access to the computer network/computers at any time, for any reason. The Board retains the right to have district personnel monitor network activity, in any form necessary, to maintain the integrity of the network and ensure its proper use.

Standards for Use of Computer Networks

Any individual engaging in the following actions when using computer networks/computers shall be subject to discipline or legal action:

- A. Using the computer network(s)/computers for illegal, inappropriate or obscene purposes, or in support of such activities. Illegal activities are defined as activities that violate federal, state, local laws and regulations. Inappropriate activities are defined as those that violate the intended use of the network. Obscene activities shall be defined as a violation of generally accepted social standards for use of publicly owned and operated communication vehicles.
- B. Using the computer network(s)/computers to violate copyrights, institutional or third party copyrights, license agreements or other contracts.

- C. Unacceptable uses of the network would include:
1. Plagiarism;
 2. Using profanity, obscenity, or language which may be offensive to other users;
 3. Re-posting communications without the author's prior consent;
 4. Using the network for profit, commercial, or illegal activity;
 5. Developing or spreading computer viruses; and
 6. Communication of a personal, private, or generally non-school related matter.

District staff will teach proper techniques and standards for participation, for guiding pupil access to appropriate sections of the network, and for making sure that pupils understand that if they misuse the network, they may lose use of their telecommunications privileges. District staff will periodically monitor, audit, and review the use of network facilities by the pupils and staff, including e-mail messages sent and received. In order for pupils to have access to a district account, pupils, their parent(s) or legal guardian(s), and sponsoring staff members must fill out the Student Application for Use of a Network Account on a yearly basis. The person using the account is responsible for its proper use.

Internet Safety/Protection

The school district is in compliance with the Children's Internet Protection Act and has installed technology protection measures for all computers in the school district, including computers in media centers/libraries, that block and/or filter visual depictions that are obscene as defined in Section 1460 of Title 18, United States Code; child pornography, as defined in Section 2256 of Title 18, United States Code; are harmful to minors including any pictures, images, graphic image file or other visual depiction that taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or depicts, describes, or represents in a patently offensive way, with respect to what is suitable for minors, sexual acts or conduct; or taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

The school district will certify on an annual basis, that the schools, including media centers/libraries, in the district are in compliance with the Children's Internet Protection Act and the school district enforces the requirements of this policy.

This Policy also establishes Internet safety policy and procedures in the district as required in the Neighborhood Children's Internet Protection Act. Policy 2361 addresses access by minors to inappropriate matter on the Internet and World Wide Web; the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications; unauthorized access, including "hacking" and other unlawful activities by minors online; unauthorized disclosures, use, and dissemination of personal identification information regarding minors; and measures designed to restrict minors' access to materials harmful to minors.

Notwithstanding blocking and/or filtering the visual depictions prohibited in the Children's Internet Protection Act, the Board shall determine other Internet material that is inappropriate for minors. The Board will provide reasonable public notice and will hold one annual public hearing during a regular monthly board meeting or during a designated special board meeting to address and receive public community input on the Internet safety policy - Policy and Regulation 2361.

Consent Requirement

No pupil shall be allowed to use the computer network and the Internet unless they shall have filed with the Manager of Information Systems a consent form signed by the pupil and his/her parent(s) or legal guardian(s).

Violations

Individuals violating this policy shall be subject to the consequences as indicated in Regulation No. 2361 and other appropriate discipline, which includes but are not limited to:

1. Use of the network only under direct supervision;
2. Suspension of network privileges;
3. Revocation of network privileges;
4. Suspension of computer privileges;
5. Revocation of computer privileges;
6. Suspension from school;
7. Expulsion from school; and/or
8. Legal action and prosecution by the authorities.

2363 PUPIL USE OF PRIVATELY-OWNED TECHNOLOGY

The Board of Education recognizes technology is always changing and as a result of increased accessibility to technology many pupils possess technology devices for their use during non-school hours. These privately-owned devices may be beneficial to pupils during school hours for approved educational purposes. Therefore, the Board of Education will allow pupils to use their privately-owned technology devices under conditions outlined in this Policy.

For the purpose of this Policy, “technology” means hardware or software.

For the purpose of this Policy, “privately-owned” means technology hardware and software that is purchased, owned, and maintained by the pupil at no expense to the school or school district.

For the purpose of this Policy, “hardware” means any device that can store, access, retrieve, and/or communicate data or information. “Hardware” may include, but is not limited to, any type of computer device; wireless telephone; electronic reader; personal digital assistant (PDAs); video broadcasting and/or recording device; or camera.

For the purpose of this Policy, “software” means any computer program(s) or related data that provide instruction for telling a computer or other hardware device what to do and how to do it.

The use of privately-owned technology by a pupil in the educational program during the school day must be approved by the pupil’s parent or legal guardian and the school teaching staff member responsible for supervising and/or providing the pupil’s instructional program. A teaching staff member may approve a pupil’s use of privately-owned technology based on the assignment(s) to the pupil. The teaching staff member may also prohibit the use of privately-owned technology for an assignment(s).

Pupils who use privately-owned technology in school will not be given access to the school district's computer server(s) or network(s). In the event the teaching staff member approves the use of privately-owned technology to access the Internet, the access must be through the privately-owned technology without the use of any school district hardware or software. Students are allowed access to the internet through PTHSD guest access. A teaching staff member who approves a pupil to use their privately-owned technology to access the Internet during instructional time will provide the pupil with a list of approved Internet sites the pupil is permitted to access. A pupil granted such permission must comply with school district policies and regulations regarding acceptable use of computers and technology. Any use of privately-owned technology by a pupil shall be in strict accordance with the teaching staff member's specific approval(s) and Board policies and regulations. Privately owned technology used in violation of this policy may be confiscated. Any violation will subject the pupil to appropriate discipline and/or grading consequences.

The teaching staff member, in considering the use of privately-owned technology, will ensure such approval does not provide any advantage or benefit to the pupil who owns such technology over the pupil who does not own such technology. The teaching staff member will not approve the use of privately-owned technology if the teaching staff member determines the use would be advantageous or beneficial to the pupil who owns such technology over the pupil who does not own such technology.

The school district assumes no responsibility for any privately-owned technology brought to school by a pupil. The pupil shall be responsible for the proper operation and use of any privately-owned technology brought to school. School staff members shall not be responsible for the effective use and/or technical support for any privately-owned technology.

The school district shall assume no responsibility for the security of or damage to any privately-owned technology brought to school by a pupil. Pupils are encouraged to purchase private insurance for loss, damage, or theft of any privately-owned technology the pupil brings to school.

2411 GUIDANCE COUNSELING

The Board of Education requires that a planned program of guidance and counseling be an integral part of the educational program of the schools to assist pupils in making and implementing informed educational and occupational choices including academic, career and personal/social development.

A program of guidance and counseling, including developmental career guidance and exploration, shall be offered to all pupils in this school district and shall be conducted entirely by teaching staff members certified as guidance personnel.

The Superintendent is directed to implement a guidance program that carries out the purposes of this policy and:

1. Involves teaching staff members at all appropriate levels;
2. Honors the individuality of each pupil;
3. Is integrated with the total educational program;
4. Is coordinated with available resources of the community;
5. Provides for cooperation of school staff with parent(s) or legal guardian(s) and shares parents' or legal guardians' concern for the development of their children;
6. Provides for the means of sharing information among appropriate staff members in the pupil's interest;
7. Is available equitably to all pupils and prohibits biased counseling and the use of materials that discriminate among pupils on the basis of their race, color, creed, religion, national origin, ancestry, age, marital status, affectational or sexual orientation or sex, social or economic status, or disability; and
8. Establishes a referral system that utilizes all the aid the schools and community offer, guards the privacy of the pupil, and monitors the efficacy of such referrals.

2412 HOME INSTRUCTION DUE TO HEALTH CONDITION

The Board of Education shall provide instructional services to an enrolled student, whether a general education student in Kindergarten through grade twelve or a special education student age three to twenty-one, when the student is confined to the home or another out-of-school setting due to a temporary or chronic health condition or a need for treatment that precludes participation in their usual education setting, whether general or special education.

A parent's requests for home instruction shall include a written determination from the student's physician documenting the projected need for confinement at the student's residence or other treatment setting for more than ten consecutive school days or twenty cumulative school days during the school year. The written determination from the student's physician shall be forwarded to the school physician, who shall either verify the need for home instruction or provide reasons for denial. The parent shall be notified concerning the school physician's verification or reasons for denial within five school days after receipt of the written determination by the student's physician.

The school district shall be responsible for the costs of providing instruction in the home or out-of-school setting either directly, or through online services, including any needed equipment, or through contract with another district Board of Education, Educational Services Commission, Jointure Commission, or approved clinic or agency. The school district shall provide instructional services within five school days after receipt of the school physician's verification or, if verification is made prior to the student's confinement, during the first week of the student's confinement to the home or out-of-school setting.

The home or out-of-school instruction shall meet the minimum standards as required in N.J.A.C. 6A:16-10.1(c). The school district shall establish a written plan for delivery of instruction and maintain a record of delivery of instructional services and student progress. The teacher providing instruction shall be a certified teacher. The teacher shall provide instruction for the number of days and length of time sufficient to continue the student's academic progress and dependent upon the student's ability to participate.

Home Instruction Due to Health Condition

For a student with disabilities, the home instruction shall be consistent with the student's Individualized Education Plan (IEP) to the extent appropriate, and shall meet the Core Curriculum Content Standards. When the provision for home instruction for a student with disabilities will exceed thirty consecutive school days in a school year, the IEP team shall convene a meeting to review and, if appropriate, revise the student's IEP.

For a student without disability, the home instruction shall meet the Core Curriculum Content Standards, and the requirements of the Board for promotion to the next grade level. When the provision for home instruction for a student without disability will exceed sixty calendar days, the school physician shall refer the student to the Child Study Team for evaluation, pursuant to N.J.A.C. 6A:14.

The Board reserves the right to withhold home instruction when the reason for the student's confinement is such as to expose a teacher to a health hazard or dangerous home situation; when a parent or other adult twenty-one years of age or older, who has been designated by the parent, is not present during the hours of instruction; or when the condition of the student is such as to preclude benefit from such instruction.

Students on home instruction will be accounted for on the attendance register as required by the Department of Education. The name of a student on home instruction will not be released at a public Board meeting or placed in a public record.

2414 PROGRAMS FOR PUPILS AT RISK

The Board of Education recognizes that certain conditions place children at risk of not acquiring the knowledge, skills, behaviors, and attitudes necessary for school success, school completion, and successful functioning as an adult in society.

A “pupil at risk” means a pupil who is in danger of failure to achieve the New Jersey Core Curriculum Content Standards and the high school graduation requirements or dropping out of school because of specific cognitive, affective, economic, social, and/or health needs. The conditions that may place a pupil at risk include the pupil's failure to acquire the essential skills needed to stay on grade level or the pupil's performance below minimum levels of proficiency; history of adjustment or behavioral problems; placement on long-term suspension for violation of school rules; history of poor school attendance; being limited in English language proficiency; being disruptive or disaffected; pregnancy or parenthood; failure to qualify for promotion or graduation; condition of poverty as defined by his/her eligibility for free meals or free milk and/or exhibiting other characteristics identified by the Board.

Programs and services for pupils at risk shall meet the goals of:

1. Enhancing the health, self-esteem, and acquisition of the life skills necessary for age-appropriate development and productive functioning in the school setting and society;
2. Identifying and assisting pupils who are not meeting standards for behavior and achievement in areas such as attendance, conduct, and mastery of the curriculum, as well as performing below state minimum levels of proficiency; and
3. Improving the school climate so that pupils experience school as a safe, supportive, and disciplined place where academic and interpersonal growth and learning can take place.

Programs and services for pupils at risk may be offered during the regular school day, beyond the regular school day, or during the summer. Any such programs and services that do not require the services of a teaching staff member or cannot be reasonably accommodated in the school setting may be delivered by qualified persons who are not necessarily certified but are supervised by appropriately certified teaching staff members.

The Board shall provide staff training necessary to implement the programs and services for pupils at risk.

2415 NO CHILD LEFT BEHIND PROGRAMS

The No Child Left Behind Act (NCLB) of 2001 is a reauthorization of the Elementary and Secondary Education Act (ESEA)/Improving America's Schools Act (IASA) 1994, providing funds to help all New Jersey's school children achieve, at a minimum, proficiency in the State standards. NCLB embodies four key principles or pillars of education reform: accountability, flexibility, choice, and methodology. The Board of Education elects to augment the instructional program of pupils by projects supported by federal funds allocated under NCLB and the district will comply with the requirements of all the programs authorized by NCLB.

The district may be eligible for several grant programs funded through NCLB, including, but not limited to, Title I through Title VI. Many of the Titles of NCLB have several parts and subparts that provide a funding source for specific purposes.

Application Procedure

The district will submit an annual No Child Left Behind Consolidated Formula Subgrant Application to the New Jersey Department of Education (NJDOE). The school district's application shall include all information required by the NJDOE and NCLB for the district to be considered for funding under NCLB.

Covered Programs

The intent of NCLB is that all children will meet State academic achievement standards to reach their potential through improved programs. The NCLB Consolidated Formula Subgrant includes the following programs:

1. Title I, Part A provides the programs and resources for disadvantaged pupils to meet this intent. It requires the State and the district to close the achievement gap by placing a highly qualified teacher in every classroom, improving the qualifications of paraprofessionals who work with disadvantaged pupils, and using instructional practices that have proven to be effective.
2. Title I, Part D serves neglected and delinquent youth in institutions, community day programs, and correctional facilities to assure they also attain high academic levels of performance.

3. Title II, Part A provides the resources for improving teacher and Principal quality and increasing the number of highly qualified teachers and Principals in classrooms and schools, thereby raising pupil achievement in the academic subjects. It focuses on preparing, training, and recruiting high-quality teachers and Principals and requires the State to develop plans with annual measurable objectives that will ensure all teachers teaching in core academic subjects are highly qualified by the end of the 2005-2006 school year.
4. Title II, Part D facilitates comprehensive and integrated educational technology strategies that target the specific needs of individual schools. It improves pupil academic achievement through the use of technology in elementary and secondary schools, while addressing the digital divide such that every pupil is technologically literate by the end of eighth grade. Effective integration of technology resources and systems with teacher training and curriculum development are encouraged in order to identify and showcase best practices in educational technology.
5. Title III, Part A focuses on the teaching of English to limited English proficient (LEP) children, including immigrant children and youth.
6. Title IV, Part A provides resources for fostering a safe and drug-free learning environment that supports academic achievement.
7. Title V, Part A provides a flexible source of funding to help districts in the development and implementation of various innovative reform initiatives.
8. Title VI, Part B addresses the unique needs of rural school districts.
9. Title IX covers the general provisions applicable to some/all of the programs.

Throughout NCLB, the use of solid research to improve teaching and learning as well as pupil behavior is required and promoted, and parent(s)/legal guardian(s) are provided with information and options to improve the educational opportunities provided for their children. The emphasis on scientifically based methodology encourages the use of teaching techniques and practices that are founded on research and proven to produce positive results.

Title I

The largest federal program supporting elementary and secondary education is Title I. NCLB strengthens Title I requirements for the State's assessments, accountability system, and support for school improvement. The law also establishes minimum qualifications for teachers and paraprofessionals in Title I programs.

The school district must use the best available measure for identifying children from low-income families to identify eligible school attendance areas, determine the ranking of each area and to determine allocations as identified in the Title I guidelines and regulations.

The school district will offer Title I services to eligible children enrolled in private elementary and secondary schools. The services and benefits will be equitable in comparison to services and benefits for participating public school children.

The school district will provide the New Jersey Department of Education assurances it will provide the maximum coordination between the Title I program, the regular school program, and services provided by other programs for specialized populations. The Title I program will consider the special needs of homeless children, migrant children, children with disabilities and limited English proficient (LEP) children. Title I funds will be reserved so that migrant children who are otherwise eligible to receive Title I services, even if they arrive during the school year, are served.

Type of Title I Program

The school district will offer a Target Assistance Title I program.

Target Assistance Program

Schools that are not eligible for (or do not choose to operate) school-wide Title I programs must use Title I funds to provide targeted services to low-achieving pupils. A Target Assistance program must be established in accordance with the Title I guidelines and regulations and the New Jersey Department of Education.

Academic Standards, Academic Assessments and Accountability

The district will comply with the requirements as outlined in Policy 2415.01 - Academic Standards, Academic Assessments and Accountability in accordance with the NJDOE and NCLB.

Fiscal Responsibility

The district will comply with the requirements as outlined in Policy 2415.02 Title I – Fiscal Responsibilities in accordance with the NJDOE and NCLB.

Staff

The district will comply with the requirements as outlined in Policy 2415.03 – Highly Qualified Teachers in accordance with the NJDOE and NCLB. In addition, the district will ensure all paraprofessionals meet the requirements as required by NCLB and as outlined in Policy 4125 – Employment of Support Staff Members.

Parental Involvement

The district will comply with the requirements as outlined in Policy 2415.04 – Parental Involvement in accordance with the NJDOE and NCLB.

Pupil Surveys, Analysis and/or Evaluations

The Protection of Pupil Rights Amendment (PPRA) applies to school districts that receive federal funding from the United States Department of Education. The district will comply with the requirements as outlined in Policy 2415.05 - Pupil Surveys, Analysis and/or Evaluations in accordance PPRA.

Unsafe School Choice Option

In the event there is a school in the district designated as Persistently Dangerous or in accordance with the Victims of Violent Criminal Offenses as outlined in NCLB, the district will comply with the requirements of Policy 2415.06 – Unsafe School Choice Option in accordance with the NJDOE and NCLB.

Property

Property acquired through Title I funds for use in public or private schools will be acquired in accordance with the Public School Contracts Law, will be held in title by the Board of Education, and will not be used for other purposes so long as it is required in the Title I program. Property no longer required for Title I purposes will be used for other, similarly funded projects or disposed of in accordance with State and federal guidelines.

Capital Expenses

The Superintendent will assure the district abides by New Jersey's Public Contracts Law; consults appropriate private school officials prior to making any decisions regarding capital expenses; ensure funds that are received to cover capital expenses provide equitable Title I services to private school pupils; ensure accounts for any capital funding are separately maintained; assure lease purchase agreements are consistent with applicable statute and administrative code.

Post-Award Requirements

The school district will maintain all project records for five years following the completion of the activity for which the funds were used. The school district will prepare and submit all reports as required by the State Department of Education in a timely manner.

Supplement, Not Supplant

Grant funds provide under federal programs, including No Child Left Behind funding, shall supplement, not supplant other non-federal funds that are available to provide programs and services to eligible pupils, unless otherwise provided in the grant program.

State waiver from certain provisions of No Child Left Behind (NCLB)

The State Of New Jersey may receive a waiver(s) from certain provisions of NCLB From The United States Department of Education. A waiver(s) may affect the applicability of the school district's NCLB policies and/or regulations. In the event a waiver(s) affects the applicability of Board of Education NCLB Policies and/or Regulations, the waiver provisions shall supersede current Board Policies and/or Regulations and the School District shall comply with the requirements as outlined by The New Jersey Department of Education in accordance with the waiver(s) application and approval(s) from The United States Department of Education.

Evaluation

The Superintendent will evaluate the NCLB programs as required by the United States and the New Jersey Departments of Education.

No Child Left Behind Act of 2001

Adopted: 2 April 2009

Revised: 11 April 2013

2415.01 ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS AND ACCOUNTABILITY

The No Child Left Behind Act of 2001 (NCLB), §1111, requires New Jersey to have an accountability system to include challenging academic content and academic achievement standards. New Jersey's Core Curriculum Content Standards define those skills needed for children to be successful in the twenty-first century economy. These skills are measured by State assessments and New Jersey's accountability design determines a school's progress toward meeting established standards. This progress measure is referred to as Adequate Yearly Progress (AYP).

Testing Requirements

In accordance with NCLB, beginning in the 2002-2003 school year, schools must administer language arts/literacy and mathematics tests in three grade spans: grades 3 through 5, grades 6 through 8, and grades 10 through 12 in all schools. By the 2005-2006 tests must be administered every year in grades three through eight and one year in grades ten through twelve. Beginning in the 2007-2008 school year, science achievement must also be tested. At least 95% of each pupil group must participate in the assessment process. Pupils who have been enrolled in the school for less than one academic year are not included in the accountability process. Pupils with disabilities who are moved from their neighborhood school to receive services at another school will be included in their home school's accountability process. Pupils with limited English proficiency must also be assessed, with accommodations. Pupil progress must also be assessed by pupil group (pupils from major racial and ethnic groups, economically disadvantaged pupils, pupils with disabilities, and pupils with limited English proficiency) in accordance with the requirements of NCLB.

Adequate Yearly Progress (AYP)

The New Jersey Department of Education (NJDOE) will establish starting points for AYP and incremental increases in expectations for all schools with the goal of all schools and pupil groups reaching 100 percent proficiency in language arts/literacy, math, and science by the 2013-2014 school year.

School Level Accountability

Each school's proficiency statistics in each area and pupil subgroup will be compared to the State-wide benchmarks. Results for subgroups with fewer than the number of pupils designated by the NJDOE will be suppressed or excluded from the analysis. Intervals of confidence of 90% will be applied to school results. If a subgroup is identified as not having met AYP, "safe harbor" may be reached if the percentage of pupils not meeting AYP has decreased by 10% from the previous school year.

NJDOE School Classification System

The NJDOE will classify schools into six categories of progress based on a school's progress toward meeting the established standards. These categories are:

1. Category I – Schools in Need of Improvement

These schools did not achieve AYP and have an achievement gap of more than 25% in attaining the State standards. The progress achieved by these schools demonstrates that significantly greater assistance is needed to reach full State standards.

This includes those schools that met the above criteria for one or more grade levels, even though they also achieved Category II, Schools in Performance Monitoring, in another grade level.

2. Category II – Schools in Performance Monitoring

These schools did not achieve AYP; however the schools have demonstrated the ability to make progress toward incrementally eliminating the achievement gap; 25% or less of pupils failed to achieve the State standards in one content area. If AYP is not made in the next academic year the school will enter Category I.

Category II includes those schools that met the above criteria even though they also achieved Category III, Schools Approaching the Standards, in another grade level.

3. Category III – Schools Approaching the Standards

These schools have nearly achieved AYP; less than 5% of pupils have not achieved State standards in only one content area. These schools are likely to meet the State standards within one academic year. However, if AYP is not made in the next academic year the school will enter Category II.

Category III includes those schools that met the above criteria even though they also achieved Category IV, Schools Receiving Conditional Approval, in another grade level.

4. Category IV – Schools Receiving Conditional Approval

These schools have achieved their designated AYP and are progressing toward meeting the State standards. These schools must be monitored for maintenance of achievement.

Category IV includes those schools that met the above criteria even though they also achieved Category V, Schools Receiving Full Approval, in another grade level.

5. Category V – Schools Receiving Full Approval

Category V schools have met State standards in at least one of the prior two years in each subject area.

6. Category VI – Schools Demonstrating Excellence

Category VI schools have always met or exceeded State standards and may be considered exemplary models of success.

The School Improvement Process

Schools that have not made adequate yearly progress for two consecutive school years in the same content area will be identified as needing school improvement before the beginning of the next school year. If any school in the district is identified as a Title I school in need of improvement, the following steps need to be taken in the Title I portion of the Consolidated Application/Plan for funding of programs governed under the No Child Left Behind Act. The plan must be developed in accordance with NCLB §1116 and NJDOE guidelines and shall include:

1. Improvement Plan – The school must develop a two-year improvement plan showing programs and strategies that will be adopted to improve teaching and learning.
2. Professional Development – The school must provide professional development for the school's staff to improve their skills. At least ten percent of the school's Title I allocation for two years must be spent to support these professional development activities.

3. Intra-district Choice – The district must develop and offer an intra-district school choice program that includes the process to be used to notify parent(s)/legal guardian(s) of pupils enrolled in the school of the school's designation as a school in need of improvement. An intra-district school choice program must offer parent(s)/legal guardian(s) the opportunity to transfer their child to another school within the district that is not identified for improvement.
4. Supplemental Services – The school must offer and provide supplemental educational services to disadvantaged children in accordance with NCLB and NJDOE guidelines.

Districts with schools that fail to make AYP, after being identified as needing school improvement, by the end of the first full year after identification must continue to

1. Offer the intra-district school choice option to parent(s)/legal guardian(s);
2. Make available supplemental educational services in accordance with NCLB §1116; and
3. Provide technical assistance in accordance with NCLB §1116.

Districts that have schools that fail to make AYP by the end of the second full year after being identified as needing school improvement must continue 1, 2 and 3 above and take at least one of the following corrective actions as identified in NCLB:

1. Replace the school staff who are relevant to the failure to make adequate yearly progress;
2. Institute and fully implement a new curriculum that includes appropriate professional development for all relevant staff that is based on scientifically based research and offers substantial promise of improving educational achievement for low-achieving pupils and enabling the school to make adequate yearly progress;
3. Significantly decrease management authority at the school level;
4. Appoint an outside expert to advise the school on its progress toward making adequate yearly progress based on its school plan;
5. Extend the school year or school day for the school; and/or

and Accountability

6. Restructure the internal organizational structure of the school.

If, after one full year of corrective action, a school subject to corrective action continues to fail to make AYP, the district shall continue to offer the intra-district school choice option, make available supplemental educational services and prepare a plan and make necessary arrangements for alternative governance in accordance with NCLB §1116.

The district may delay, for a period not to exceed one year, implementation of certain corrective action and/or restructuring in accordance with NCLB §1116.

Funds for transportation and supplemental educational services shall be provided in accordance with NCLB, §1116.

2415.02 TITLE I – FISCAL RESPONSIBILITIES

The Parsippany-Troy Hills Township School District Board of Education will comply with the requirements of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2701 et seq.) as amended by the No Child Left Behind Act of 2001.

Maintenance of Effort

To be in compliance with the requirements of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2701 et seq.) as amended by the No Child Left Behind Act of 2001, §1120A(a), the Parsippany-Troy Hills Township School District Board of Education will maintain a combined fiscal effort per pupil, or aggregate expenditures, of State and local funds with respect to the provision of the free public education in the Local Education Agency (LEA) for the preceding fiscal year that is not less than ninety percent of the combined fiscal effort per pupil, or the aggregate expenditures, for the second preceding fiscal year.

Comparability with Multiple Schools

To be in compliance with the requirements of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2701 et seq.) as amended by the No Child Left Behind Act of 2001, §1120A(c), the Parsippany-Troy Hills Township School District Board of Education directs the Superintendent to assign teachers, administrators, and auxiliary personnel to the schools in such a way that the equivalence of personnel is ensured among schools.

Comparability of Materials and Supplies

To be in compliance with the requirements of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2701 et seq.) as amended by the No Child Left Behind Act of 2001, §1120A(c), the Parsippany-Troy Hills Township School District Board of Education directs the Superintendent to distribute curriculum materials and instructional supplies to the schools in such a way that the equivalence of such material is ensured among schools.

2415.03 HIGHLY QUALIFIED TEACHERS

The No Child Left Behind Act (NCLB) requires all teachers be or become highly qualified in the core academic content area(s) they teach in accordance with the United States Department of Education and the New Jersey Department of Education highly qualified teacher requirements.

Teachers who have achieved highly qualified status retain highly qualified status permanently for the teaching assignment designated on the approved highly qualified teacher forms. No teacher providing direct instruction in core content areas is grandfathered or exempt from this process.

The district shall maintain the appropriate highly qualified documentation for all teachers who provide direct instruction in core content areas. When a teacher changes teaching assignments, which requires different content expertise, additional highly qualified teacher forms must be completed and kept on file within the district. Highly qualified teacher documentation should be completed for all new teachers and for those with new teaching assignments at the beginning of each school year.

When a teacher obtains employment in a new school district, the new district must contact the previous place of employment to have the teacher's official highly qualified teacher forms sent to the new district. A teacher hired from another State must hold New Jersey certification and must meet New Jersey's highly qualified teacher requirements. Out-of-State teachers may provide documentation to support their highly qualified teacher status from the previous State in which they taught.

All Title I schools must send out a Right-to-Know letter in the beginning of every school year informing parent(s) or legal guardian(s) that they have the right to know the qualifications of their child's teacher. The letter should be sent by all Title I and non-Title I districts. In addition, in all Title I schools, the parent(s) or legal guardian(s) of pupils whose teacher is not yet highly qualified must be notified. Copies of these letters must be kept on file in the school.

2415.04 PARENTAL INVOLVEMENT

The Parsippany-Troy Hills School District agrees to implement the following statutory requirements:

- The school district will put into operation programs, activities and procedures for the involvement of parents in all of its schools with Title I, Part A programs, consistent with section 1118 of the Elementary and Secondary Education Act (ESEA). Those programs, activities and procedures will be planned and operated with meaningful consultation with parents of participating children.
- Consistent with section 1118, the school district will work with its schools to ensure that the required school-level parental involvement policies meet the requirements of section 1118(b) of the ESEA, and each include, as a component, a school-parent compact consistent with section 1118(d) of the ESEA.
- The school district will incorporate this district-wide parental involvement policy into its LEA plan developed under section 1112 of the ESEA.
- In carrying out the Title I, Part A parental involvement requirements, to the extent practicable, the school district and its schools will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migrant children, including providing information and school reports required under section 1111 of the ESEA in an understandable and uniform format and, including alternative formats upon request, and, to the extent practicable, in a language parents understand.
- If the LEA plan for Title I, Part A, developed under section 1112 of the ESEA, is not satisfactory to the parents of participating children, the school district will submit any parent comments with the plan when the school district submits the plan to the State Department of Education.
- The school district will involve the parents of children served in Title I, Part A schools in decisions about how the one percent of Title I, Part A funds reserved for parental involvement is spent, and will ensure that not less than 95 percent of the one percent reserved goes directly to the schools.
- The school district will be governed by the following statutory Definition of parental involvement, and expects that its Title I schools will carry out programs, activities and procedures in accordance with this definition:

Parental involvement means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring-

1. That parents play an integral role in assisting their child's learning;

No Child Left Behind Act of 2001, Title X, Part F, §1061

Adopted: 2 April 2009

2415.06 UNSAFE SCHOOL CHOICE OPTION

The Unsafe School Choice Option (USCO) provision of The No Child Left Behind Act of 2001 (NCLB) §9532 contains two provisions that apply to school districts that receive funds under NCLB: Provision I - Persistently Dangerous Schools and Provision II - Victims of Violent Criminal Offenses.

Effective the beginning of each school year, school districts receiving NCLB funds must be prepared to complete the transfer of pupils who choose to exercise Provision I and Provision II of NCLB and this Unsafe School Choice Option Policy. Compliance with the Policy is a condition of receiving funds under any and all titles under NCLB. The Superintendent is required to certify compliance with this USCO Policy to the New Jersey Department of Education (NJDOE) in the application for NCLB funds.

USCO Policy Provision I - Persistently Dangerous Schools (PDS)

1. Criteria for Determining Persistently Dangerous Schools.

A persistently dangerous school is a public elementary or secondary school building (except for Regional Day Schools, Educational Services Commissions and Special Services School Districts) that meets the objective criteria determined by the New Jersey Department of Education (NJDOE) for three consecutive years and is part of a school district that receives funds under NCLB. The NJDOE will use the most current available data from the Electronic Violence and Vandalism Reporting System (EVVRS) to identify persistently dangerous schools on or before July 31 of each year, in compliance with federal regulations (68 FR 16789).

2. Procedures and Guidelines for Schools Determined to be Persistently Dangerous.

Once the district receives notification a school is identified as persistently dangerous, the district must inform all parents of enrolled pupils in the school of the designation within fifteen calendar days of the notice and offer them the option for their children to transfer to a safe public school within the district by the beginning of the respective school year. The district must complete all transfers by the beginning of the school year following the July notification.

Pupils are not required to accept the transfer option, but they must be afforded the opportunity to do so. Parental notice regarding the status of the school and the offer to transfer pupils should be made simultaneously. Parents of enrolled pupils must be notified of the persistently dangerous designation whether or not there is another school within the district for the transferring pupils.

To the extent possible, the district will allow transferring pupils to transfer to schools that are making adequate yearly progress in accordance with NCLB and have not been identified as being in need of school improvement, corrective action or restructuring. The district will take into account the needs and preferences of the affected pupils and parents.

3. Corrective Action Plan for a School Identified as Persistently Dangerous.

If a school in the district is identified as persistently dangerous, the district will submit to the NJDOE, on or before August 25, documentation of compliance with the parent notification requirement and actions taken to complete the transfer arrangements for all pupils exercising the option by the first day of the school year. The district will also develop and submit for approval a corrective action plan to the NJDOE on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide schools with guidance for their corrective action plans, as well as monitor the school district's timely completion of the approved plans.

In the spring of each following year, the NJDOE will re-evaluate the status of a school identified as persistently dangerous. The NJDOE will review the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools (PDS). A school identified as maintaining the persistently dangerous designation will be notified by the NJDOE on or before July 31 of the respective year and will be required to submit for approval a revised corrective action plan by August 25 of that year, which will apply to the respective school year. The school district must inform all parents of enrolled pupils in the school of the designation within fifteen calendar days of the notice and offer them the option for their children to transfer to a safe public school by the beginning of the respective school year.

A school no longer designated persistently dangerous will be notified on or before July 31 of the respective year. The persistently dangerous designation will be removed after one or more years contingent upon successful fulfillment of the criteria for removal, as determined by and in accordance with guidance provided by the NJDOE.

4. Procedures and Guidelines for Early Warning of Schools.

Effective in 2004, if a school meets the criteria set forth in this Policy for two consecutive years, the district will be notified of their pattern of offenses on or before August 15 of each year. If notified, the district will develop and submit to the NJDOE for approval a corrective action plan on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school with guidance for their corrective action plan, as well as monitor the school's timely completion of the approved plan. This school shall become a top priority for intensified district support for research-based programs and technical assistance. A school receiving an "early warning" notice is not required to provide the transfer option to pupils.

In the spring of each following year, the NJDOE will reevaluate the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools. Schools will be notified of their status on or before July 31 of the respective year.

A school that has successfully completed their corrective action plan and reported violent incidents that no longer meet the Criteria for Determining Persistently Dangerous Schools for one school year (the year in which the corrective action plan was in effect) will no longer be required to submit a Corrective Action Plan.

A school that does not successfully complete their Corrective Action Plan and that meets the criteria set forth in this Policy for a third consecutive year will be designated as persistently dangerous and will be required to submit for approval a revised corrective action plan on or before September 30 of that year, which will apply to the respective school year. The district will also provide the transfer option to pupils in the school designated as persistently dangerous.

5. Schools Not Receiving NCLB Funds, but Meeting the Criteria for PDS.

School buildings and districts that do not receive federal funds under NCLB, but meet any one of the criteria for persistently dangerous schools, will be contacted by the NJDOE and be required to develop and submit for approval a Corrective Action Plan on or before September 30 of the respective year. The Corrective Action Plan must be completed in the format provided by the NJDOE and describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school guidance for their corrective action plan, as well as monitor the school's timely completion of the approved plan.

USCO Policy Provision II - Victims of Violent Criminal Offenses

The Victim of Violent Criminal Offenses provision of NCLB requires a pupil who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary or secondary school that the pupil attends, be allowed to attend a safe public elementary or secondary school within the district, including a public charter school.

The Superintendent will consult with the Board attorney and communicate with designated local and/or county law enforcement authorities, per the provisions of the Uniform State Memorandum of Agreement Between Education and Law Enforcement Officials and N.J.A.C. 6A:16-6.2(b)12, on questions and issues that arise in the implementation of the individual victims of violent criminal offenses section of this Policy.

1. Criteria for Determining Victims of Violent Criminal Offenses

The following criteria must be used to determine when an enrolled pupil has become a victim of a violent criminal offense while in or on the grounds of a public elementary or secondary school that the pupil attends. These criteria only apply to a pupil who has become a victim of one or more of the violent criminal offenses enumerated below:

A pupil is considered a victim of a violent criminal offense when:

- a. A referral has been made to law enforcement officials for suspicion that one of the violent criminal offenses enumerated below has occurred; and
- b. One or more of the following applies:

- (1) Law enforcement officials have filed formal charges against the perpetrator(s) for commission of the violent crime; or
- (2) The perpetrator(s) of the violent crime has been disciplined in accordance with school policy; or
- (3) The perpetrator(s) of the violent crime either has not been identified or is not an enrolled pupil(s), but it is clear that the pupil (victim) has become a victim of a violent criminal offense based on objective indicators such as physical evidence, eyewitness testimony, and/or circumstantial evidence; or
- (4) The pre-existence of a restraining order against the perpetrator(s) of the violent crime.

2. Procedures and Guidelines

Effective the first day of each school year beginning in 2003, the district must be prepared to begin the transfer of any pupil who chooses to exercise the unsafe school choice option provision. The district must offer, within ten calendar days, an opportunity to transfer to a safe public school within the district to any pupil who has become a victim of a violent criminal offense while in or on the grounds of a public school that the pupil attends. While the pupil must be offered the opportunity to transfer, the pupil may elect to remain at the school.

To the extent possible, the district will allow any transferring pupil to transfer to a school that is making adequate yearly progress in accordance with NCLB and has not been identified as being in need of school improvement, corrective action or restructuring. The district will take into account the needs and preferences of the affected pupil and his or her parent(s). Transfers must occur within thirty days of the determination that the pupil was a victim of a violent criminal offense.

3. Violent Criminal Offenses

The violent criminal offenses under New Jersey statutes that apply to the individual victim provision are identified and explained below. The offenses apply to completed offenses, as well as threats and attempts to commit the offenses. The offenses and attempts to commit the offenses apply only when they occur in or on the grounds of a school that the pupil attends. The offenses apply whether they occur wholly or in part in or on the grounds of a school that the pupil attends.

The offenses apply only to acts or attempts that are directed at a person (victim) or a group of specified individuals (victims), rather than acts that indiscriminately affect the entire school population or non-specified individuals or groups. For the purposes of this Unsafe School Choice Option Policy, the term “victim” shall not include a pupil who purposely, knowingly or recklessly provokes the conduct constituting the criminal incident against him or her.

4. Applicable Violent Criminal Offenses

Below is a description of each applicable violent criminal offense that is based upon New Jersey statutes and references to statutory citations that provide complete explanations of each designated offense. The descriptions provided below are not intended to be a complete explanation of each offense or a substitute for the actual provisions of the authorizing statutes. Instead, the descriptions are provided as an aid in facilitating understanding of the general intent and practical applications of the violent criminal offenses that pertain to this Unsafe School Choice Option Policy.

- a. Homicide [N.J.S.A. 2C:11-2] - A person is a victim of a homicide when he or she is the child, sibling or other relative of a decedent, resulting from someone purposely, knowingly or recklessly causing the death of the pupil’s parent, sibling or relative in or on school grounds.
- b. Miscellaneous Provisions of USCO

1. Transfer Time Period – Persistently Dangerous Schools
The transfer will be temporary and will be in effect as long as the pupil's original school is identified as persistently dangerous.
2. Charter School Transfer Option
While NCLB permits affected pupils to be afforded the opportunity to attend a public charter school, in addition to a safe public elementary school or secondary school within the school district, the application of this provision in New Jersey is limited. Transfers to a charter school can only occur as a part of the charter school's "equal opportunity" selection process and among charter schools administered under the same managing authority (i.e., charter schools within the charter school district).

Since charter schools in New Jersey are considered public LEA's, pursuant to N.J.S.A. 18A:36A-3, operated independently of a local board of education, transfers may only take place among charter schools within the LEA. Therefore, pupils may be permitted to transfer to another charter school that is administered under the same managing authority of the charter school, but are not permitted to transfer to a school in the local public school district administered by a local board of education.

However, pursuant to N.J.S.A. 18A:36A-7, a charter school must be open to all pupils on a space available basis and may not discriminate in its admission policies or practices (although it may establish reasonable criteria to evaluate prospective pupils), and in accordance with N.J.S.A. 18A:36A-8, if there are more applications to enroll in the charter school than there are spaces available, the charter school must select pupils to attend using a random selection process for enrollment.

3. Funding Sources for USCO

The Unsafe School Choice Option law does not authorize resources specifically to help cover USCO costs. However, under certain circumstances Federal funds may be used. For example, funds under SDFSCA (Title IV, Part A of the NCLB) may be used to establish safe zones of passage to and from school to ensure that pupils travel safely on their way to school and on their way home [Section 4115(b)(2)(E)(v)]. In addition, SDFSCA funds may be used to help cover costs such as tuition or transportation related to the Unsafe School Choice Option or expansion of public school choice [Section 5121(8) and 5131(12 and (25))].

4. Special Education Pupils

The district will provide transferred special education pupils with the program required by the pupil's Individualized Education Program (IEP).

5. Transfer Schools

In the event there is not another school within the school district for a transferring pupil, the district is not required to transfer the pupil to a school outside the school district.

[Optional

6. The district will offer pupils the transfer option if they do not meet the criteria for determining victims of violent criminal offenses under the USCO Policy Provision II as one response for providing relief to pupils whose victimization has affected their safety and ability to learn.]

Under the federal regulations (68 FR 16789), this Policy only applies to offenses that occur in the 2003–2004 school year and thereafter. Beginning with the 2004–2005 school year, the district must provide the transfer option to victims of violent criminal offenses that occurred in the previous school year, if the determination that the pupil was a victim was made thirty days or fewer before the end of the school year.

The district will use the school choice option as one response to incidents of victimization. Additionally, the district will develop and implement appropriate strategies for addressing the circumstances that contribute to or support victimization, as well as consistently and proactively manage individuals who have victimized pupils. The district will promote the importance of school safety and respond to the needs of pupils and staff. Pursuant to the law, the district will provide an opportunity for pupils, parents and school district and law enforcement personnel to discuss methods for keeping schools safe from violence; to create school safety plans; and to recognize pupils in need of help. The district will organize activities to prevent school violence, including, but not limited to, age-appropriate opportunities for pupil discussion on conflict resolution, issues of pupil diversity and tolerance. Law enforcement personnel will be invited to join members of the teaching staff in the discussions. Programs shall also be provided for school district employees that are designated to help school district employees recognize warning signs of school violence and to instruct school district employees on recommended conduct during an incident of school violence.

N.J.S.A. 18A:17-46 requires a public hearing in the third week in October of each year for the Superintendent to report to the Board all acts of violence and vandalism that occurred in the district during the previous school year. The public hearing shall be transcribed and kept on file in the Board of Education Office. The transcript shall be made available to the public upon request. The Board must also file the transcript with the NJDOE for review.

A pregnant pupil who does not wish to attend regular classes or is physically unable to do so during her pregnancy may, with her consent, be assigned to an alternate instructional program which may include home instruction or a program offered by another school district or institution.

The parent(s) or legal guardian(s) of a pregnant pupil under eighteen years of age shall be notified of any change in the pupil's regular educational program.

2422 HEALTH EDUCATION

The Board of Education will provide a comprehensive health education program aligned with the New Jersey Department of Education Core Curriculum Content Standards. This program will be a coordinated sequential curriculum at all grade levels, with instructional units appropriate to the age, growth and development, and maturity of pupils.

The Superintendent will develop and recommend to the Board a program of health education designed for pupils to master the Cumulative Progress Indicators of the Department of Education's Comprehensive Health Education and Physical Education Core Curriculum Content Standards.

Staffing

Except as provided below for human sexuality and family life education, courses in health education will be taught by teachers whose certification qualifies them to teach health education. Teachers of the human sexuality and family life, substance use and abuse, and HIV prevention programs will be offered specific in-service training.

Excusal

Any pupil whose parent(s) or legal guardian(s) presents to the School Principal a signed statement that any part of the instruction in health, human sexuality and family life education or sex education program is in conflict with his/her conscience or sincerely held moral or religious beliefs shall be excused from the portion of the course in which such instruction is being given, and no penalties as to credit or graduation shall result.

Community Involvement

The Superintendent will ensure the program is aligned with the New Jersey Department of Education's Core Curriculum Content Standards. The programs of instruction for human sexuality and family life education will be developed through consultation with appropriate district employees and community members.

Human Sexuality and Family Life Education

All pupils will learn the biological, cultural, and psychological aspects of human sexuality and family life. The Board will adopt a coordinated, sequential human sexuality and family life education program aligned with the New Jersey Department of Education's Core Curriculum Content Standards. Any education that is given as part of any planned course, curriculum or other instructional program and that is intended to impart information or promote discussion or understanding in regard to human sexual behavior, sexual feelings and values, human sexuality and reproduction, pregnancy avoidance or termination, HIV infection or sexually transmitted diseases, and any materials including, but not limited, to handouts, speakers, notes or audiovisuals presented on school property concerning methods for the prevention of acquired immune deficiency syndrome (HIV/AIDS), other sexually transmitted diseases and of avoiding pregnancy, will stress that abstinence from sexual activity is the only completely reliable means of eliminating the sexual transmission of HIV/AIDS and other sexually transmitted diseases and of avoiding pregnancy.

The Board will include in its human sexuality and family life curriculum instruction on reasons, skills and strategies for remaining or becoming abstinent from sexual activity. Any instruction concerning the use of contraceptives or prophylactics, such as condoms, will also include information on their failure rates for preventing pregnancy, HIV and other sexually transmitted diseases in actual use among adolescent populations and shall clearly explain the difference between risk reduction through the use of such devices and risk elimination through abstinence. In addition, the human sexuality and family life curriculum will stress the importance of avoiding intravenous drug use.

A copy of the complete district human sexuality and family life education curriculum and all instructional materials shall be available for public inspection in each school in the district prior to its use in any classroom. The parent(s) or legal guardian(s) of each pupil enrolled in the program shall receive annually an outline of the curriculum and a list of instructional materials for that pupil's grade along with notice of the availability for review of the complete curriculum and all materials.

The human sexuality and family life program may be taught by district personnel certified to teach biology, comprehensive science, elementary grades, health, health and physical education, home economics, nursery school, psychology, or special education classes, and the school nurse. The program may utilize the contributions of such community resource persons as parent(s) or legal guardian(s), physicians, the clergy, attorneys, school social workers, school psychologists, and law enforcement personnel. The Board encourages the utilization of teachers in other disciplines through an interdisciplinary approach.

Use and Abuse of Alcohol, Tobacco, and Other Drugs

All pupils will learn the physical, mental, emotional, and social effects of the use and abuse of alcohol, tobacco, and other drugs. The Board will adopt a coordinated, sequential human sexuality and family life education program aligned with the New Jersey Department of Education's Core Curriculum Content Standards.

2423 BILINGUAL AND ESL EDUCATION

The Board of Education will provide programs of bilingual education, English as a second language (ESL), and English language services for pupils of Limited English Proficiency (LEP) as required by law and rules of the State Board of Education. Pupils of LEP are those pupils whose native language is other than English and who have sufficient difficulty speaking, reading, writing, or understanding the English language as measured by an English language proficiency test, so as to be denied the opportunity to learn successfully in the classrooms where the language of instruction is English.

Identification of LEP Pupils

The Board will conduct a screening process to determine the native language of each pupil at the time of enrollment in the school district. A census shall be maintained of all pupils whose native language is other than English. The English language proficiency of each pupil whose native language is not English shall be determined by a screening process that includes the administration of a New Jersey Department of Education approved English language proficiency test, an assessment of the pupil's level of reading in English, a review of the pupil's previous academic performance, results of standardized tests in English, and a review of the input of teaching staff members responsible for the educational program of the limited English proficient pupils.

Program Implementation

The district shall provide the following programs:

1. An English language services program whenever there are one or more, but fewer than ten LEP pupils enrolled within the schools of the district. English language services shall be in addition to the regular school program.
2. An ESL program whenever there are ten or more LEP pupils enrolled within the schools of the district; and
3. A bilingual program whenever there are twenty or more LEP pupils in any one language classification. Where the age range, grade span, and/or geographical location of eligible pupils makes a full-time bilingual program impractical, the Board may offer an instructional program alternative, provided that program has been approved or a waiver for the alternative program has been requested and approval has been granted by the Department of Education. The Board may establish a program in bilingual education for any language classification with fewer than twenty pupils.

All teachers in these programs shall be appropriately certified in accordance with the requirements as outlined in N.J.A.C. 6A:15-1.9. Every pupil participating in a bilingual, ESL, or English language services program shall be entitled to continue such participation for a period of three years.

Bilingual, ESL, and English Language Services Program Enrollment, Assessment, Exit, and Re-entry

Pupils enrolled in a bilingual, ESL, or English languages services program shall be assessed annually with a New Jersey Department of Education approved English language proficiency test to determine their progress in achieving English language proficiency goals and readiness for exiting the program. LEP pupils enrolled in a bilingual, ESL, or English language services program shall be placed in a monolingual English Program when they have demonstrated readiness to function successfully in the English-only program. This process shall be initiated by the pupil's level of English proficiency as measured by a New Jersey Department of Education established standard on an English language proficiency test, and the readiness of the pupil shall be further assessed on the basis of multiple indicators which shall, at a minimum, include classroom performance, the pupil's reading level in English, the judgment of the teaching staff member or members responsible for the education program of the pupil, and performance on achievement tests in English.

In accordance with provisions of N.J.S.A. 18A:35-22.1, a parent(s) or legal guardian(s) may remove a pupil who is enrolled in a bilingual education program at any time; except that during the first three years of a pupil's participation in a bilingual education program, parent(s) or legal guardian(s) may only remove the pupil at the end of each school year. If during the first three years of a pupil's participation in a bilingual education program, a parent(s) or legal guardian(s) wishes to remove the pupil prior to the end of each school year, the removal must be approved by the Executive County Superintendent of Schools. The parent(s) or legal guardian(s) may appeal the Executive County Superintendent's decision to the Commissioner of Education.

Newly exited pupils who are not progressing in the mainstream English program may be considered for re-entry to bilingual and ESL programs in accordance with the provisions of N.J.A.C. 6A:15-1.10(e)1 through (e)5.

When the exit review process is completed, the pupil's parent(s) or legal guardian(s) shall be informed by mail of the placement determination. A parent(s) or legal guardian(s), or teaching staff member who disagrees with the proposed placement may appeal the decision in writing to the Principal, who will provide a written explanation for the decision within ten working days. The complainant may appeal this decision in writing to the Board. The Board will review the appeal and respond in writing within forty-five calendar days. A complainant not satisfied with the Board's explanation may appeal to the Commissioner of Education.

Parental Involvement

The parent(s) or legal guardian(s) of a pupil of limited English proficiency will be notified, in accordance with the provisions of N.J.A.C. 6A:15-1.13 that their child has been identified as eligible for enrollment in a bilingual, ESL or English language services program. Notice shall be in writing, in the language of which the child of the parents so notified possesses a primary speaking ability, and in English. The notice must also include the information that the parents have the option of declining enrollment if they so chose.

Parent(s) or legal guardian(s) shall receive progress reports in the same manner and frequency as those sent to parents or legal guardians of other pupils.

Parent(s) or legal guardian(s) of pupils of limited English proficiency will be offered opportunities for involvement in the development and review of program objectives. An advisory committee on bilingual education shall be formed with the majority being parent(s) or legal guardian(s) of pupils of limited English proficiency.

Graduation

Pupils of limited English proficiency will qualify for graduation from high school in accordance with N.J.A.C. 6A:8-5.1(a) and Policy No. 5460.

Program Plan

The Superintendent shall prepare and submit a plan for a bilingual, ESL, or English language services program every three years to the Board and the New Jersey Department of Education for approval in accordance with the provisions of N.J.A.C. 6A:15-1.6.

2430 CO-CURRICULAR ACTIVITIES

The Board believes that the educational goals and objectives of the district are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular classroom program.

The purpose of co-curricular activities shall be:

1. To develop useful new capabilities in pupils that can lead to extension of career opportunities;
2. To develop pupil initiative and provide for the exercise of responsibility;
3. To develop leadership capabilities and good organizational skills;
4. To aid pupils in the social skills; and
5. To enable pupils to explore a wider range of individual interests than might be available in the regular program.

For purposes of this policy, "co-curricular activities" shall be those activities that are sponsored or approved by the Board but are not offered for credit toward graduation. Such activities shall generally be conducted outside the regular school day, available to pupils who voluntarily elect to participate, marked by pupil participation in the processes of initiation, planning, organizing, and execution and shall ordinarily include band, clubs, dramatic or musical presentations, and intramural and interscholastic sports.

Equal access to school facilities shall be granted to all activities that meet this definition.

The Superintendent shall prepare procedures to implement a co-curricular program that shall:

1. Assess the needs and interests of the pupils of this district;
2. Ensure the provision of competent guidance and supervision by staff;
3. Guard against the exploitation of pupils;
4. Provide for a variety of experiences and a diversity of organizational models;
5. Provide for the continuing evaluation of the co-curricular program and staff;

6. Ensure that all co-curricular activities are open to all eligible pupils and that all pupils are fully informed of the opportunities open to them.

Only persons in the employ of a Board of Education shall be permitted to organize district pupils during school time or during any recess in the school day for purposes of instruction or coaching or for conducting games, events, or contests in physical education or athletics.

No activity shall be considered to be under the sponsorship of this Board unless the Board, on recommendation of the Superintendent, has approved it. Fundraising must be approved in accordance with Board policy.

All pupils in good disciplinary and academic standing shall have equal access to all co-curricular activities regardless of race, color, creed, religion, sex, affectional or sexual orientation, national origin, ancestry, marital status, place of residence within the district, social or economic status, or non-applicable disability.

Good Disciplinary Standing

Good disciplinary standing shall mean that a pupil is not eligible to participate while serving a detention or suspension. Pupils who accumulate disciplinary referrals or commit a serious offense may be prohibited from participation in or attendance at co-curricular activities.

1. When a pupil already participating in a co-curricular activity is reported for an infraction of the rules for pupil conduct, the Principal shall appoint a staff committee to consider whether the pupil shall be removed from any or all co-curricular activities.
2. If a pupil was in bad disciplinary standing the previous term, the Principal shall refer the matter to a staff committee to determine whether the pupil shall be permitted to participate during the current term.

Good Academic Standing

To be eligible for athletic competition during the first semester (September 1 to January 31) of the tenth grade or higher, or the second year of attendance in a secondary school or beyond, a pupil must have passed 25% of the credits required by the State of New Jersey for graduation, during the immediately preceding academic year.

To be eligible for athletic competition which begins during the second semester (February 1 to June 30) during the ninth grade or higher, a pupil must have passed the equivalent of 12 1/2% of the credits required by the State of New Jersey for graduation at the close of the preceding semester (January 31). Full year courses shall be equated as one-half of the total credits to be gained for the full year to determine credits passed during the immediately preceding semester.

Notwithstanding the provisions of the paragraphs above, a pupil who is eligible at the beginning of a sports season shall be allowed to finish that season.

Coaches and advisors shall check on academic status of participants.

Coaches and advisors shall work with the professional staff to encourage pupils to achieve eligibility for athletics and co-curricular activities; i.e., seek teacher and counselor assistance.

The Child Study Team shall determine the eligibility in athletics and all co-curricular activities for special education and classified pupils, as long as it is in compliance with the State regulations.

A pupil who begins the year not in good academic standing, who maintains a passing grade in every subject, may request consideration to participate in co-curricular activities at the beginning of the second semester.

Attendance

The district's attendance policy shall also apply.

Implementation

2431 ATHLETIC COMPETITION

The Board of Education recognizes the value of a program of athletic competition for both boys and girls as an integral part of the total school experience. Game activities and practice sessions provide opportunities to learn the values of competition and good sportsmanship. Programs of athletic competition, both intrascholastic and interscholastic, offer pupils the opportunity to exercise and test their athletic abilities in a context greater and more varied than that offered by the class or school or school district alone, and an opportunity for career and educational development.

For purpose of this policy, programs of athletic competition includes all activities relating to competitive sports contests, games, events, or sports exhibitions involving individual pupils or teams of pupils when such events occur within or between schools within this district or with any schools outside this district. The programs of athletic competition shall include, but are not limited to, high school interscholastic athletic programs, middle school interscholastic athletic programs where school teams or squads play teams or squads from other school districts, and/or intramural athletic programs within a school or among schools in the district and any cheerleading program or activity in the school district.

Eligibility Standards

A pupil who wishes to participate in a program of athletic competition must submit, on a form provided by the district, the signed consent of his/her parent(s) or legal guardian(s). The consent of the parent(s) or legal guardian(s) of a pupil who wishes to participate in a program of athletic competition must include an acknowledgment of the physical hazards that may be encountered in the activity.

Pupil participation in a program of athletic competition shall be governed by the following eligibility standards:

For School Districts with High School Pupils

1. To be eligible for participation in the interscholastic athletic program of a New Jersey State Interscholastic Athletic Association (NJSIAA) member school all high school pupils must meet, at a minimum, all the eligibility requirements of the Constitution, Bylaws, and Rules and Regulations of the NJSIAA.]

Home schooled children are not eligible to participate in the high school interscholastic athletic program of this district.

2. A pupil in grades 6 through 8 is eligible for participation in school district sponsored programs of athletic competition if he/she passed all courses required for promotion or graduation in the preceding marking period.

Home schooled children in grades 6 through 8 are not eligible to participate in the school sponsored programs of athletic competition of this district.

3. A pupil in any grade who fails to observe school rules for pupil conduct may forfeit his/her eligibility for participation in school district sponsored programs of athletic competition.

Notice of the school district's eligibility requirements shall be available to pupils.

Health Requirements

Good physical condition, freedom from injury, and full recovery from illness are prerequisites to participation in school district sponsored programs of athletic competition. Information concerning a pupil's HIV/AIDS status shall not be required as part of the medical examination or health history pursuant to N.J.S.A. 26:5C-1 et seq.

Pupils enrolled in grades six to twelve must receive a medical examination prior to participation in school--sponsored interscholastic or intramural programs of athletic competition and any cheerleading program or activity.

A medical examination is the assessment of an individual's health status. The examination shall be conducted within 365 days prior to the first practice session with examinations being conducted at the medical home of the pupil. The "medical home" is defined as a health care provider and that provider's practice site chosen by the pupil's parent(s) or legal guardian(s) for the provision of health care. If a pupil does not have a medical home, the school district shall provide this examination at the school physician's office or other comparably equipped facility. The parent(s) or legal guardian(s) may choose either the school physician or their own private physician to provide this medical examination.

The findings of this examination shall be documented on a form that is approved by the Commissioner of Education and shall include: immunizations pursuant to N.J.A.C. 8:57-4.1 through 4.16; medical history including allergies, past serious illnesses, injuries, operations, medications, and current health problems; health screenings including height, weight, hearing, blood pressure, and vision; and physical examinations. A physical examination is the examination of the body by a professional licensed to practice medicine or osteopathy or an advanced practice nurse.

The medical examination shall also include a health history questionnaire completed and signed by the parent or legal guardian. A health history is a record of a person's past health events provided by the individual, a parent or legal guardian, or health care provider.

The report of health findings of the medical examination for participation shall be documented on the Athletic Preparticipation Physical Examination Form approved by the Commissioner of Education to determine whether the pupil had or currently has any of the health conditions outlined in N.J.A.C. 6A:16-2.2(h)1.ii.(1) since their last physical. The medical examination shall be conducted in accordance with N.J.A.C. 6A:16-2.2 and Regulation 2431.2.

The medical report shall include, at a minimum, normalities as outlined in N.J.A.C. 6A:16-2.2(h)1.ii.(2). The medical report shall be provided to the school physician if the school physician did not conduct the medical examination. The medical report shall indicate whether the pupil is allowed or disallowed to participate in a program of athletic competition and must be completed and signed by the original examining physician, advanced practice nurse, or physician's assistant. A form that is incomplete shall be returned to the pupil's medical home for completion. A pupil that does not have a completed Athletic Preparticipation Physical Examination Form shall not be permitted to participate.

If the pupil's medical examination was completed more than sixty days prior to the first practice session, the pupil must provide a health history update of medical problems experienced since the last medical examination in accordance with N.J.A.C. 6A:16-2.2(h)1.iii. This health history update must be completed and signed by the parent(s) or legal guardian(s).

The school district will provide written notification to the parent(s) or legal guardian(s), signed by the school physician, stating approval of the pupil's participation, based solely on the medical report, or the written reasons for the school physician's disapproval of the pupil's participation. The school physician's signature on the notification indicates the medical report complies with the requirements of N.J.A.C. 6A:16-2.2(h)iv.

The health findings of this medical examination shall be maintained as part of the pupil's health record.

Emergency Procedures

Athletic coaches shall be trained in first aid to include sports-related concussion and head injuries, the use of a defibrillator, the identification of pupil athletes who are injured or disabled in the course of any athletic program or activity, and any other first aid procedures or other health related trainings required by law or the Superintendent.

The Superintendent shall prepare and present to the Board for its approval procedures for the emergency treatment of injuries and disabilities that occur in the course of any athletic program **or** activity. Emergency procedures shall be reviewed not less than once in each school year and shall be disseminated to appropriate staff members.

Interscholastic Standards

The Board shall approve annually a program of interscholastic athletics and shall require that all facilities utilized in that program, whether or not the property of this Board, properly safeguard both players and spectators and are kept free from hazardous conditions.

The Board adopts the Constitution, Bylaws, Rules, and Regulations of the New Jersey State Interscholastic Athletic Association as Board policy and shall review such rules on a regular basis to ascertain they continue to be in conformity with the objectives of this Board.

P 2431.3 PRACTICE AND PRE-SEASON HEAT-ACCLIMATION FOR INTERSCHOLASTIC ATHLETICS

The Board of Education adopts this Policy as a measure to protect the safety, health, and welfare of pupils participating in school-sponsored interscholastic athletic programs. The Board believes practice and pre-season heat-acclimation guidelines for student-athletes will minimize injury and enhance the student-athlete's health, performance, and well-being.

For the purposes of this Policy, “practice time,” means the time a player engages in physical activity. Warm-up, stretching, conditioning, weight training, and “cool-down” periods shall be calculated in practice time.

For the purposes of this Policy “walk-through” means practice time where no protective equipment or strenuous activity is permitted and only balls and field markers (cones) may be used.

The first five days of the Board approved pre-season practice shall consist of no more than three hours of practice time. This three-hour practice time during the first five days may be divided into multiple sessions, but total practice time shall not exceed three hours. Full protective gear required for any athletic program may only be worn by student-athletes on the third day of practice and thereafter. Activities during the first two days of practice will be limited to those activities where full protective gear is not needed or required. Protective headgear may be worn on the first two days. Full equipment shall not be worn for any practice that is held before the NJSIAA official start of practice date.

A student-athlete shall not be permitted to participate in a scrimmage for any sport until he/she has completed six complete days of practice.

An athletic team may not practice for more than six consecutive days and one twenty-four hour rest period must be included within a seven-day period. After the fifth day of practice, the maximum allotted time per day for practice shall not exceed five hours. The five-hour practice time may be divided into multiple sessions but total practice time in any day shall not exceed five hours. A five-hour practice day may not be followed by a practice day greater than three hours. Therefore, practice days may follow a 3-5-3-5 format. A minimum of a three-hour recovery period shall be provided after any session of greater than two hours in length and a three-hour recovery period should be provided before a walk-through.

2431.4 PREVENTION AND TREATMENT OF SPORTS-RELATED CONCUSSIONS AND HEAD INJURIES

A concussion is a traumatic brain injury caused by a direct or indirect blow to the head or body. In order to ensure the safety of pupils that participate in interscholastic athletics and cheerleading programs, it is imperative that student-athletes, cheerleaders, coaches, and parents are educated about the nature and treatment of sports-related concussions and other head injuries. Allowing a student-athlete or cheerleader to return to play before recovering from a concussion increases the chance of a more serious brain injury.

Every school district that participates in interscholastic athletics or cheerleading programs is required to adopt a policy concerning the prevention and treatment of sports-related concussions and other head injuries among student-athletes and cheerleaders in accordance with the provisions of N.J.S.A. 18A:40-41.1 et seq. For the purpose of this Policy, “interscholastic athletics” shall be Kindergarten through twelfth grade school-sponsored athletic programs where teams or individuals compete against teams or individuals from other schools or school districts. For the purpose of this Policy, “cheerleading program” shall be Kindergarten through twelfth grade school-sponsored cheerleading programs.

The school district will adopt an Interscholastic Athletic and Cheerleading Head Injury Training Program to be completed by the team or school physician, licensed athletic trainer(s) involved in the interscholastic athletic program, all staff members that coach an interscholastic sport or cheerleading program, designated school nurses, and other appropriate school district personnel as designated by the Superintendent. This Training Program shall be in accordance with guidance provided by the New Jersey Department of Education and the requirements of N.J.S.A. 18A:40-41.2.

The Principal or designee shall distribute the New Jersey Department of Education Concussion and Head Injury Fact Sheet and Parent/Guardian Acknowledgement Form to every student-athlete who participates in interscholastic sports and every cheerleader who participates in a cheerleading program. The Principal or designee shall obtain a signed acknowledgement of the receipt of the Fact Sheet by the student-athlete or cheerleader’s parent and keep on file for future reference.

Prevention of a sports-related concussion and head injuries is an important component of the school district's program. The school district may require pre-season baseline testing of all student-athletes and cheerleaders before the student-athlete pupil begins participation in an interscholastic athletic or cheerleading program.

Any student-athlete or cheerleader who exhibits the signs or symptoms of a sports-related concussion or other head injury during practice or competition shall be immediately removed from play and may not return to play that day. Emergency medical assistance shall be contacted when symptoms get worse, loss of consciousness, direct neck pain associated with the injury, or any other sign the supervising school staff member determines emergency medical attention is needed. If available when the student-athlete or cheerleader is exhibiting signs or symptoms, the student-athlete pupil will be evaluated by the school or team physician. The Principal or designee shall contact the student-athlete's pupil's parent and inform the parent of the suspected sports-related concussion or other head injury.

Possible signs of a concussion can be observed by any school staff member or the school or team physician. Any possible symptoms of a concussion can be reported by the student-athlete or cheerleader to: coaches; licensed athletic trainer; school or team physician; school nurse; and/or parent. The Principal or designee shall provide the student-athlete or cheerleader with Board of Education approved suggestions for management/medical checklist to provide to their parent and physician or other licensed healthcare professional trained in the evaluation and management of sports-related concussions and other head injuries.

A student-athlete or cheerleader who participates in interscholastic athletics or a cheerleading program and who sustains or is suspected of sustaining a concussion or other head injury shall be required to have a medical examination conducted by their physician or licensed health care provider. The pupil's student-athlete's physician or licensed health care provider shall be trained in the evaluation and management of concussion to determine the presence or absence of a sports-related concussion or head injury.

The pupil's student-athlete's physician or licensed health care provider must provide to the school district a written medical release/clearance for the pupil student-athlete indicating when the pupil student-athlete is able to return to the activity. The medical release/clearance must indicate the student-athlete or cheerleader is asymptomatic at rest and either may return to the interscholastic athletic activity or cheerleading program because the injury was not a concussion or other head injury or may begin the district's graduated return to competition and practice protocol outlined in Regulation 2431.4. A medical release/clearance not in compliance with this Policy will not be accepted. The medical release/clearance must be reviewed and approved by the school or team physician.

This Policy and Regulation shall be reviewed and approved by the school physician and shall be reviewed annually, and updated as necessary, to ensure it reflects the most current information available on the prevention, risk, and treatment of sports-related concussion and other head injuries.

In order to ascertain that school sponsored publications do not violate the standards established by this policy, the Board requires that each publication be submitted to the Principal for review in advance of its distribution. A publication that contains material in violation of this policy may not be distributed.

Where the Principal cannot show, within three school days, that the publication violates the prohibitions of this policy, the publication must be released for distribution. The Principal's determination, if any, that the publication violates this policy should be supported by references to specific material in the publication. Material cannot be censored because it is personally offensive to the reviewer. Pupils must be offered the opportunity to modify or delete any material that violates this policy.

The Principal's determination may be appealed to the Superintendent and the Board.

The Board requires that the distribution of school publications take place only at the places and during the times established by regulation in order that the instructional program is not disrupted.

2435 - NJSIAA RANDOM TESTING FOR INTERSCHOLASTIC ATHLETICS

The Board of Education recognizes the use of harmful performance enhancing substances seriously threatens the health, safety, and welfare of pupil-athletes that participate in interscholastic athletics. This district's secondary school is a member of the New Jersey State Interscholastic Athletic Association (NJSIAA). It is a violation of NJSIAA's sportsmanship rule for any pupil-athlete to possess, ingest, or otherwise use any substance on NJSIAA's list of banned substances, without written prescription by a fully licensed physician, recognized by the American Medical Association, to treat a specific medical condition. Therefore, NJSIAA, in accordance with Executive Order 72, will test a random selection of pupil-athletes who have qualified, as individuals or as members of a team, for NJSIAA sanctioned State championship competition.

The list of banned substances, for the purposes of this Policy, shall be prepared and published by NJSIAA. Before participating in interscholastic sports, the pupil-athlete and their parent or guardian shall consent to random testing in accordance with NJSIAA's Steroid Testing Policy by completing and submitting to the school district NJSIAA's Consent To Random Testing Form. NJSIAA's list of banned substances shall be attached to the consent form and the consent form must be signed each school year. The failure to sign the consent form shall render the pupil-athlete ineligible to participate in all interscholastic sports until the form is signed. The signed Consent To Random Testing Forms shall be maintained in the Building Principal's office.

Pupil-athletes will be selected to be tested on a random basis from all athletes participating in championship competition in accordance with NJSIAA procedures. The test will analyze a urine sample. The methodology for taking and handling samples shall be in accordance with current legal standards and tests shall be administered by a certified laboratory designated by NJSIAA. No test shall be considered a positive result unless the approved laboratory reports a positive result and NJSIAA's medical review officer confirms there was no medical reason for the positive result. The sample will be split when taken and shall be available in the event of an appeal. A positive test result may be appealed in accordance with NJSIAA's appeal procedures. Results of all tests shall be considered confidential and shall only be disclosed to the individual, his or her parent(s) or legal guardian(s), and his or her school.

NJSIAA Random Testing for Interscholastic Athletics

It is NJSIAA's Policy that any person who tests positive in an NJSIAA administered test, or any person who refuses to provide a testing sample when identified, or any person who reports his or her own violation, shall immediately forfeit his or her eligibility to participate in NJSIAA competition for a period of one year from the date of the test. Any such person shall also forfeit any individual honor earned while in violation. No person who tests positive, refuses to provide a sample, or who reports his or own violation shall resume eligibility until he or she has undergone counseling and produced a negative test result. NJSIAA's Policy shall not prevent the school district from disciplining a pupil for violating the district's substance abuse policies or practices and a violation of a school district's testing program will not be reported to NJSIAA.

NJSIAA's Executive Committee shall annually compile and report the results of the Steroid Testing Policy and determine whether the Policy shall be renewed or discontinued.

The Board expressly forbids the use of school equipment for the illegal reproduction of copyrighted materials.

In order to define the fair and reasonable use that teaching staff members may make of copyrighted works for educational purposes without the permission of the copyright owner and to reduce the risk of copyright infringement, the Board directs the Superintendent to promulgate regulations regarding the copying and distribution of copyrighted materials for instructional purposes.

Computer software may be reproduced only for archival purposes or when copying is an essential step in the utilization of the program. 2560 LIVE ANIMALS IN SCHOOL

The Board of Education recognizes the appropriate use of live animals as instructional resources can enrich the educational program. The observation and nurture of live animals can help children learn specific biological and behavioral principles and gain respect for all living things.

2622 PUPIL ASSESSMENT

The Commissioner of Education shall implement a system and related schedule of Statewide assessments to evaluate student achievement of the Core Curriculum Content Standards in accordance with the provisions of N.J.A.C. 6A:8-4.1 et seq. The Board of Education is required to administer the applicable Statewide assessments according to the schedule prescribed by the Commissioner.

State assessments provide parents with important information about their child's progress; detailed diagnostic information about each individual student's performance that educators, parents, and students can utilize to enhance foundational knowledge and student achievement; and include item analysis which will clarify a student's level of knowledge and understanding of a particular subject or area of a subject. The data derived from State assessments will be utilized by teachers and administrators to pinpoint areas of difficulty and customize instruction accordingly. Such data can be accessed and utilized as a student progresses to successive school levels.

The New Jersey Department of Education, pursuant to State law and regulations, requires all students to take State assessments as scheduled. There is no provision for a student to opt-out of Statewide assessments. If a student is absent on a testing date, the student will be expected to take the missed test on another school day. Parents and students will be informed of all scheduled testing dates, including make-up testing dates for students who missed the initial testing date.

The Board recognizes that assessment of pupil learning is inextricably connected to curriculum and instruction. Because of this connection, accurate assessment of learning is vital. Pupils and their parent(s) or legal guardian(s) must know and understand the learner's growth and progress. Teachers must have accurate assessment data to guide instructional decision-making. Administrators, the Board, and the public must have accurate assessment information to guide the district's educational program. To provide this information, the Board requires and supports an assessment system that recognizes assessment rights and responsibilities of pupils, teachers, parent(s) or legal guardian(s), and its administrators.

The Board further recognizes that grading is a common means of communicating the results of classroom assessment; however, the grade in itself, is not the total academic assessment. The grade is simply a way to describe the general results of classroom assessment. The Board directs that the instructional program of this district include a common grading system which is a reflection of sound classroom assessment practices.

Test Administration Procedures and Security Measures

All Statewide assessments shall be administered in accordance with the Department of Education's required test administration procedures and security measures. Any breach of such procedures or measures shall be immediately reported to the Superintendent or designee.

All students are expected to demonstrate the knowledge and skills of the Core Curriculum Content Standards as measured by the Statewide assessment system.

QSAC is the New Jersey Department of Education monitoring and evaluating system for public school districts. Public school districts in New Jersey are evaluated in five key component areas of school effectiveness instruction and program, personnel, fiscal management, operations, and governance to determine the extent to which the school district is providing a thorough and efficient education.

Weighted quality performance indicators established by the Department of Education shall be used by the Commissioner of Education to assess school district performance and capacity during the comprehensive reviews pursuant to N.J.A.C. 6A:30-3.1 through 3.4, the in-depth evaluation pursuant to N.J.A.C. 6A:30-5.3, and monitoring of an approved QSAC district improvement plan pursuant to N.J.A.C. 6A:30-5.6. The weighted quality performance indicators shall also be used by the Commissioner in determining whether to initiate intervention activities pursuant to N.J.A.C. 6A:30-6.2, withdrawal from intervention pursuant to N.J.A.C. 6A:30-7.1, and initial placement of Level II, Level III, and State-Operated School Districts on the performance continuum pursuant to N.J.A.C. 6A:30-8.3.

The Commissioner shall conduct a comprehensive review of each public school district every three years. In the intervening years, the Commissioner shall assess the school districts performance to determine whether conditions exist in the school district that significantly and negatively impact the educational program or operations of the school district.

The Superintendent shall be responsible for completing the District Performance Review in accordance with the requirements as outlined in N.J.A.C. 6A:30-3.2. The District Performance Review and a Statement of Assurance prepared in accordance with N.J.A.C. 6A:30-3.2(e) shall be approved by the Board of Education by resolution and submitted to the County Superintendent of Schools in accordance with the provisions of N.J.A.C. 6A:30-3.2(f) and (g). The district's District Performance Review and the Statement of Assurance will be reviewed and evaluated in accordance with the requirements of N.J.A.C. 6A:30-3.3. The Commissioner shall issue a final determination of the school district's performance and initial placement on the performance continuum in accordance with N.J.A.C. 6A:30-4.1.

New Jersey Quality Single Accountability Continuum (QSAC)

The district will be required to commence improvement activities as set forth in N.J.A.C. 6A:30-5.3 through 5.7 in the event it satisfies less than eighty percent of the weighted quality performance indicators in one or more key components of school district effectiveness. Where appropriate, pursuant to the factors as outlined in N.J.A.C. 6A:30-6.2, the Commissioner may seek forms of partial or full intervention in a school district as outlined in N.J.A.C. 6A:30-6.1 et seq. Withdrawal from partial or full State intervention shall be in accordance with the provisions of N.J.A.C. 6A:30-7 et seq.

No provision of N.J.A.C. 6A:30 Evaluation of the Performance of School Districts, shall limit the ability of the Department to monitor public school district practices by, among other things, conducting on-site visits to observe instructional practices and school facilities or take other such action as in the judgment of the Commissioner or his/her designee that may be warranted to ensure the satisfaction of any statutory or constitutional obligation.
