Board of Education Meeting Questions and Answers

July 23, 2015

A standard teacher's contract contains annual across the board salary increase rates for each of the years covered by the contract. However, in any given year a teacher may also qualify for other types of salary increase, such as step increases, which are added on top of the annual across the board increase.

- Please describe the other types of salary increases that a teacher may earn in addition to the annual across the board increase
 - Salary increments, longevity, stipends for additional activities, additional compensation for more classes taught than allowed by contract

- For the most recent year for which there is data – what is the minimum rate, the maximum rate, and the average rate that teachers' salaries were increased because of these supplementary raises?
 - Records are not held in this format. Individual salaries are approved in Superintendent's Bulletins.
