ESEA-ESSA Nonpublic Affirmation of Consultation

The goal of consultation is an agreement between the LEA and appropriate nonpublic school officials on how to provide equitable and effective programs for eligible nonpublic school students. The “goal of reaching agreement” between an LEA and appropriate nonpublic school officials is grounded in timely, meaningful, and open communication between the LEA and the nonpublic school officials on key issues that are relevant to the equitable participation of eligible nonpublic school students, teachers and other education personnel, and families in ESEA programs.

Meaningful consultation provides ample time and a genuine opportunity for all parties to express their views, to have their views seriously considered, and to discuss viable options for ensuring equitable participation of eligible nonpublic school students, teachers and other education personnel, and families. This assumes that the LEA has not made any decisions that will impact the participation of nonpublic school students and teachers in applicable programs prior to consultation, or established a blanket rule that precludes nonpublic school students and teachers from receiving certain services authorized under applicable programs. An LEA must consult with nonpublic school officials about the timeline for consultation and provide adequate notice of such consultation to ensure meaningful consultation and the likelihood that those involved will be well prepared with the necessary information and data for decision-making. Successful consultation begins well before the implementation of services, establishes positive and productive working relationships, makes planning effective, continues throughout implementation of equitable services, and serves to ensure that the services provided meet the needs of eligible students and teachers.

Note: For every nonpublic school that chooses to participate in an *ESEA* program, an LEA must upload in Homeroom a completed and signed consultation form. If the nonpublic school elects not to participate in an *ESEA* program, a completed and signed Refusal of Funds form must be uploaded in Homeroom. (NPC – Form upload for *ESEA*).

- Whether equitable services will be provided by creating a pool(s) of funds or on a school-by-school basis
- Whether to coordinate funds under Title I, Part A with eligible funds under other federal programs, including: Title I, Part C; Title II, Part A; Title III; Title III Immigrant, Title IV, Part A; through consolidation of the available funds
- LEA Fiscal policies that may impact the timeline for the provision of services (e.g., procurement requirements, consolidated application timeline, etc.)
- Requirement that the LEA retain control of all Title funds, materials, equipment, and property

Title I, Part A

The following topics must be discussed during the ongoing consultation process:

Method for determining the number of children from low-income families in participating school attendance areas who attend nonpublic schools (select one from the list below):

- Using the same measure of low-income used to count public school children in the LEA (e.g., free or free and reduced)
- Using the results of a survey that may be extrapolated if complete actual data are unavailable
- Applying the low-income percentage of each participating public school attendance area to the number of private school children who reside in that school attendance area
- Using an equated measure of low-income correlated with the measure of low-income used to count public school children
- Proportion of funds allocated for services based on the number of children from low-income families who attend private schools
- How the proportion of funds is determined
- How and when the addresses of low-income students will be provided to the LEA by the nonpublic school
- Parent and family engagement activity reservation, if applicable
- How the children's needs will be identified
- How the Title I, Part A services will be assessed, and how the results of those evaluations will be used to improve the services
